NOTES TO SCHEDULE OF INVESTMENTS

CVA – Certificaten Van Aandelen

- (1) Non-income producing.
- (2) Security, or a portion thereof, is on loan. At the period end, the aggregate value of securities on loan was \$226,988,706. The amount of securities on loan indicated may not correspond with the securities on loan identified because securities with pending sales are in the process of recall from the brokers.
- (3) Affiliated Company: the fund's holding represents ownership of 5% or more of the voting securities of the company; therefore, the company is affiliated as defined in the Investment Company Act of 1940.
- (4) Investment of cash collateral from securities on loan. At the period end, the aggregate value of the collateral held by the fund was \$242,287,745, which includes securities collateral of \$152,975,288.

AFFILIATED COMPANY TRANSACTIONS

If a fund's holding represents ownership of 5% or more of the voting securities of a company, the company is affiliated as defined in the 1940 Act. A summary of transactions for each company which is or was an affiliate at or during the period ended August 31, 2025 follows (amounts in thousands):

Company	Beginning Value	Purchase Cost	Sales Cost	Change in Net Unrealized Appreciation (Depreciation)	Ending Value	Ending Shares	Net Realized Gain (Loss)	Income
Rex International Holding Ltd. ⁽¹⁾⁽²⁾	\$ 1,572	\$ 7,037	\$ 257	\$ 1,877	\$ 10,229	73,547	\$ (10)	—

(1) Security, or a portion thereof, is on loan.

(2) Non-income producing.

Avantis Responsible Emerging Markets Equity ETF	AVSE	NYSE Arca, Inc.
Avantis Responsible International Equity ETF	AVSD	NYSE Arca, Inc.

Each fund represents a single operating segment as its operating results are monitored as a whole and the long-term asset allocation is determined in accordance with its prospectus, based on defined investment objectives executed by the fund's portfolio management team. The President of the funds serves as the chief operating decision maker (CODM). A fund's income, expenses, assets, and performance are regularly monitored and assessed by the CODM, using the information consistent with that presented in the financial statements and financial highlights.

2. Significant Accounting Policies

The following is a summary of significant accounting policies consistently followed by the funds in preparation of their financial statements. Each fund is an investment company and follows accounting and reporting guidance in accordance with accounting principles generally accepted in the United States of America. This may require management to make certain estimates and assumptions at the date of the financial statements. Actual results could differ from these estimates. Management evaluated the impact of events or transactions occurring through the date the financial statements were issued that would merit recognition or disclosure.

Investment Valuations — Each fund determines the fair value of its investments and computes its net asset value (NAV) per share at the close of regular trading (usually 4 p.m. Eastern time) on the New York Stock Exchange (NYSE) on each day the NYSE is open. The value of a fund's investments is determined by American Century Investment Management, Inc. (ACIM) (the investment advisor), as the valuation designee, pursuant to its valuation policies and procedures. The Board of Trustees oversees the valuation designee and reviews its valuation policies and procedures at least annually.

Equity securities that are listed or traded on a domestic securities exchange are valued at the last reported sales price or at the official closing price as provided by the exchange. Equity securities traded on foreign securities exchanges are generally valued at the closing price of such securities on the exchange where primarily traded or at the close of the NYSE, if that is earlier. If no last sales price is reported, or if local convention or regulation so provides, the mean of the latest bid and asked prices may be used. Securities traded over-the-counter are valued at the mean of the latest bid and asked prices, the last sales price, or the official closing price.

Fixed income securities are valued at the evaluated mean as provided by independent pricing services or at the mean of the most recent bid and asked prices as provided by investment dealers. U.S. Treasury and Government Agency securities are valued using market models that consider trade data, quotations from dealers and active market makers, relevant yield curve and spread data, creditworthiness, trade data or market information on comparable securities, and other relevant security specific information.

Open-end management investment companies are valued at the reported NAV per share.

If the valuation designee determines that the market price for a portfolio security is not readily available or is believed by the valuation designee to be unreliable, such security is valued at fair value as determined in good faith by the valuation designee, in accordance with its policies and procedures. Circumstances that may cause a fund to determine that market quotations are not available or reliable include, but are not limited to: when there is a significant event subsequent to the market quotation; trading in a security has been halted during the trading day; or trading in a security is insufficient or did not take place due to a closure or holiday.

The valuation designee monitors for significant events occurring after the close of an investment's primary exchange but before the NAV per share is determined. Significant events may include, but are not limited to: corporate announcements and transactions; regulatory news, governmental action and political unrest that could impact a specific investment or an investment sector; or armed conflicts, natural disasters and similar events that could affect investments in a specific country or region. The valuation designee also monitors for significant fluctuations between domestic and foreign markets, as evidenced by the U.S. market or

such other indicators that it deems appropriate. The valuation designee may apply a model-derived factor to the closing price of equity securities traded on foreign securities exchanges. The factor is based on observable market data as provided by an independent pricing service.

Fair Value Measurements — The investments valuation process is based on several considerations and may use multiple inputs to determine the fair value of the investments held by a fund. In conformity with accounting principles generally accepted in the United States of America, the inputs used to determine a valuation are classified into three broad levels.

- Level 1 valuation inputs consist of unadjusted quoted prices in an active market for identical investments.
- Level 2 valuation inputs consist of direct or indirect observable market data (including quoted prices for comparable investments, evaluations of subsequent market events, interest rates, prepayment speeds, credit risk, etc.). These inputs also consist of quoted prices for identical investments initially expressed in local currencies that are adjusted through translation into U.S. dollars.
- Level 3 valuation inputs consist of unobservable data (including a fund's own assumptions).

The level classification is based on the lowest level input that is significant to the fair valuation measurement. The valuation inputs are not necessarily an indication of the risks associated with investing in these securities or other financial instruments. The Schedule of Investments provides additional information on a fund's level classifications.

Foreign Currency Translations — All assets and liabilities, including investment securities and other financial instruments, initially expressed in foreign currencies are translated into U.S. dollars each day at the mean of the appropriate currency exchange rate at the close of the NYSE as provided by an independent pricing service. A fund may enter into spot foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of investment securities, dividend and interest income, spot foreign currency exchange contracts, and expenses are translated at the rates of exchange prevailing on the respective dates of such transactions. Net realized and unrealized foreign currency exchange gains or losses related to investment securities are a component of net realized gain (loss) on investment transactions and change in net unrealized appreciation (depreciation) on investments, respectively.

Security Transactions — Security transactions are accounted for as of the trade date. Net realized gains and losses are determined on the identified cost basis, which is also used for federal income tax purposes. Certain countries impose taxes on realized gains on the sale of securities registered in their country. A fund records the foreign tax expense, if any, on an accrual basis. The foreign tax expense on realized gains and unrealized appreciation reduces the net realized gain (loss) on investment transactions and net unrealized appreciation (depreciation) on investments, respectively.

Investment Income — Dividend income less foreign taxes withheld, if any, is recorded as of the ex-dividend date. Distributions received on securities that represent a return of capital or long-term capital gain are recorded as a reduction of cost of investments and/or as a realized gain. A fund may estimate the components of distributions received that may be considered nontaxable distributions or long-term capital gain distributions for income tax purposes. Interest income less foreign taxes withheld, if any, is recorded on the accrual basis and includes paydown gain (loss) and accretion of discounts and amortization of premiums. Securities lending income is net of fees and rebates earned by the lending agent for its services.

Income Tax Status — It is each fund's policy to distribute substantially all net investment income and net realized gains to shareholders and to otherwise qualify as a regulated investment company under provisions of the Internal Revenue Code. Accordingly, no provision has been made for income taxes. A fund files U.S. federal, state, local and non-U.S. tax returns as applicable. A fund's tax returns are subject to examination by the relevant taxing authority until expiration of the applicable statute of limitations, which is generally three years from the date of filing but can be longer in certain jurisdictions. At this time, management believes there are no uncertain tax positions which, based on their technical merit, would not be sustained upon examination and for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Distributions to Shareholders — Distributions to shareholders are recorded on the ex-dividend date in a manner consistent with provisions of the 1940 Act. A fund may elect to treat a portion of its payment to a redeeming shareholder, which represents the pro rata share of undistributed net investment income and net realized gains, as a distribution for federal income tax purposes (tax equalization). Distributions from net investment income, if any, are generally declared and paid semiannually. Distributions from net realized gains, if any, are generally declared and paid annually.

Indemnifications — Under the trust's organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to a fund. In addition, in the normal course of business, a fund may enter into contracts that provide general indemnifications. The maximum exposure under these arrangements is unknown as this would involve future claims that may be made against a fund. The risk of material loss from such claims is considered by management to be remote.

Securities Lending — Securities are lent to qualified financial institutions and brokers. State Street Bank & Trust Co. serves as securities lending agent to the funds pursuant to a Securities Lending Agreement. The lending of securities exposes a fund to risks such as: the borrowers may fail to return the loaned securities, the borrowers may not be able to provide additional collateral, a fund may experience delays in recovery of the loaned securities or delays in access to collateral, or a fund may experience losses related to the investment collateral. To minimize certain risks, loan counterparties pledge collateral in the form of cash and/or securities. The lending agent has agreed to indemnify the funds in the case of default of any securities borrowed. Cash collateral received is invested in the State Street Navigator Securities Lending Government Money Market Portfolio, a money market mutual fund registered under the 1940 Act. The loans may also be secured by U.S. government securities in an amount at least equal to the market value of the securities loaned, plus accrued interest and dividends, determined on a daily basis and adjusted accordingly. By lending securities, a fund seeks to increase its net investment income through the receipt of interest and fees. Such income is reflected separately within the Statement of Operations. The value of loaned securities and related collateral outstanding at period end, if any, are shown on a gross basis within the Schedule of Investments and Statement of Assets and Liabilities, and the remaining contractual maturities of any securities lending transactions are considered overnight and continuous.

3. Fees and Transactions with Related Parties

Certain officers and trustees of the trust are also officers and/or directors of American Century Companies, Inc. (ACC). The trust's investment advisor, ACIM, and the trust's administrator, American Century Services, LLC, are wholly owned, directly or indirectly, by ACC.

Management Fees — The trust has entered into a management agreement with ACIM, under which ACIM provides each fund with investment advisory and management services in exchange for a single, unified management fee (the fee). The agreement provides that ACIM will pay all expenses of managing and operating a fund, except brokerage and other transaction fees and expenses relating to the acquisition and disposition of portfolio securities, acquired fund fees and expenses, interest, taxes, litigation expenses, extraordinary expenses and, in the case of certain funds, fees and expenses of the independent trustees (including legal counsel fees). The fee is computed and accrued daily based on the daily net assets of each fund and paid monthly in arrears.

The annual management fee is as follows:

	Annual Management Fee
Avantis Emerging Markets Equity ETF	0.33%
Avantis Emerging Markets ex-China Equity ETF	0.33%
Avantis Emerging Markets Small Cap Equity ETF	0.42%
Avantis Emerging Markets Value ETF	0.36%
Avantis International Equity ETF	0.23%

Avantis International Small Cap Equity ETF	0.30%
Avantis International Small Cap Value ETF	0.36%
Avantis Responsible Emerging Markets Equity ETF	0.33%
Avantis Responsible International Equity ETF	0.23%

Trustees' Fees and Expenses — The Board of Trustees is responsible for overseeing the investment advisor's management and operations of the funds. The trustees receive detailed information about the funds and their investment advisor regularly throughout the year, and meet at least quarterly with management of the investment advisor to review reports about fund operations. The funds' officers do not receive compensation from the funds.

Other Expenses — A fund's other expenses may include interest charges, clearing exchange fees, proxy solicitation expenses, fees associated with the recovery of foreign tax reclaims and other miscellaneous expenses.

Related Party Ownership — A related party, including other funds advised by American Century Investments, may own outstanding shares of a fund. Related parties do not invest in a fund for the purpose of exercising management or control. As of period end, related parties with ownership of 5% or more of the outstanding shares of a fund are as follows:

	Related Party	% of Outstanding Shares
Avantis Emerging Markets Small Cap Equity ETF	American Century ETF Trust	12%
Avantis Emerging Markets Value ETF	American Century ETF Trust	11%
Avantis International Large Cap Value ETF	American Century ETF Trust	17%
Avantis International Small Cap Equity ETF	American Century ETF Trust	5%

Interfund Transactions — A fund may enter into security transactions with other American Century Investments funds and other client accounts of the investment advisor, in accordance with the 1940 Act rules and procedures adopted by the Board of Trustees. The rules and procedures require, among other things, that these transactions be effected at the independent current market price of the security. There were no interfund transactions during the period.

4. Investment Transactions

Investment transactions, excluding short-term investments and in kind transactions, for the period ended August 31, 2025 were as follows:

*Net realized gain (loss) on in kind transactions are not considered taxable for federal income tax purposes.

5. Capital Share Transactions

Each fund's shares may only be bought and sold in a secondary market through a broker-dealer at a market price. Because ETF shares trade at market prices rather than NAV, shares may trade at a price greater than NAV (a premium) or less than NAV (a discount). Each fund issues and redeems shares at their NAV only in aggregations of a specified number of shares (a creation unit) generally in exchange for a designated portfolio of securities and/or cash (including any portion of such securities for which cash may be substituted). Authorized participants may be required to pay an additional variable charge to cover certain brokerage, tax, foreign exchange, execution, market impact and other costs and expenses related to the execution of trades resulting from creation unit transactions. Such variable charges, if any, are included in other capital within the Statement of Changes in Net Assets.

6. Risk Factors

The overall risk profile of a fund will be impacted by the fund's investment strategy, including the investment vehicles and techniques utilized to manage a portfolio. The net asset value of a fund will go up and down, sometimes rapidly or unpredictably, based on the performance of the securities owned by the fund and other factors generally affecting the securities market. Market risks, including political, regulatory, economic and social developments, can affect the value of a fund's investments. Natural disasters, public health emergencies, war, terrorism and other unforeseeable events may lead to increased market volatility and may have adverse long-term effects on world economies and markets generally.

7. Federal Tax Information

The tax character of distributions paid during the years ended August 31, 2025 and August 31, 2024 (except as noted) were as follows:

(1) March 19, 2024 (fund inception) through August 31, 2024.

(2) November 7, 2023 (fund inception) through August 31, 2024.

The book-basis character of distributions made during the year from net investment income or net realized gains may differ from their ultimate characterization for federal income tax purposes. These differences reflect the differing character of certain income items and net realized gains and losses for financial statement and tax purposes, and may result in reclassification among certain capital accounts on the financial statements.

The reclassifications, which are primarily due to in kind transactions, were as follows:

	Avantis Emerging Markets Equity ETF	Avantis Emerging Markets ex-China Equity ETF	Avantis Emerging Markets Small Cap Equity ETF	Avantis Emerging Markets Value ETF	Avantis International Equity ETF
Capital paid in	\$ 49,539,703	\$ 1,119,988	\$ 2,345,550	\$ 27,018,655	\$ 90,025,399

The difference between book-basis and tax-basis unrealized appreciation (depreciation), if any, is attributable primarily to the realization to ordinary income for tax purposes of unrealized gains on investments in passive foreign investment companies.

Accumulated capital losses represent net capital loss carryovers that may be used to offset future realized capital gains for federal income tax purposes. The capital loss carryovers may be carried forward for an unlimited period. Future capital loss carryover utilization in any given year may be subject to Internal Revenue Code limitations.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Funds’ management. Our responsibility is to express an opinion on the Funds’ financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Funds are not required to have, nor were we engaged to perform, an audit of their internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Funds’ internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included confirmation of securities owned as of August 31, 2025, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

Approval of Management Agreements

At a meeting held on June 11, 2025, the Funds' Board of Trustees (the "Board") unanimously approved the renewal of the management agreements pursuant to which American Century Investment Management, Inc. (the "Advisor") acts as the investment advisor for each Fund. Under the Investment Company Act of 1940 (the "Investment Company Act"), contracts for investment advisory services are required to be reviewed, evaluated, and approved by a majority of a fund's Trustees, including a majority of the independent Trustees.

Prior to its consideration of the renewal of the Funds' management agreements, the Trustees requested and reviewed extensive data and information compiled by the Advisor and certain independent data providers concerning each Fund. This review was in addition to the oversight and evaluation undertaken by the Board and its Audit Committee on a continual basis and the information received was supplemental to the extensive information that the Board and its Audit Committee receive and consider over time.

In connection with its consideration of the renewal of the management agreements, the Board's review and evaluation of the services provided by the Advisor included, but was not limited to:

- the nature, extent, and quality of investment management, shareholder services, distribution services, and other services provided to each Fund;
- the wide range of programs and services the Advisor and other service providers provide to each Fund and its shareholders on a routine and non-routine basis;
- each Fund's investment performance compared to appropriate benchmarks and/or peer groups of other funds with similar investment objectives and strategies;
- the cost of owning each Fund compared to the cost of owning similarly-managed funds;
- the Advisor's compliance policies, procedures, and regulatory experience and those of certain other service providers;
- the Advisor's strategic plans, generally, and with respect to the Advisor's response to investment management industry challenges;
- the Advisor's business continuity plans, vendor management practices, and information security practices;
- the cost of services provided to each Fund, the profitability of each Fund to the Advisor, and the Advisor's financial results of operation;
- possible economies of scale associated with the Advisor's management of each Fund;
- any collateral benefits derived by the Advisor from the management of each Fund;
- fees and expenses associated with any investment by each Fund in other funds;
- payments to intermediaries by each Fund and the Advisor and services provided by intermediaries in connection therewith; and
- services provided and charges to the Advisor's other investment management clients.

The independent Trustees met separately in private sessions to discuss the renewal and to review and discuss the information provided in response to their request. The independent Trustees also held active discussions with the Advisor regarding the renewal of the management agreements. The independent Trustees had the benefit of the advice of their independent counsel throughout the process.

Factors Considered

The Trustees considered all of the information provided by the Advisor, the independent data providers, and the independent Trustees' independent counsel in connection with the approval. They determined that the information was sufficient for them to evaluate the management agreements for the Funds. In connection with their review, the Trustees did not identify any single factor as being all-important or controlling, and each Trustee may have attributed different levels of importance to different factors. In deciding to renew the management agreements, the Board based its decision on a number of factors, including without limitation the following:

Nature, Extent and Quality of Services — Generally. Under each Fund's management agreement, the Advisor is responsible for providing or arranging for all services necessary for the operation of each Fund. The Board noted that the Advisor provides or arranges at its own expense a wide variety of services which include the following:

- constructing and designing each Fund
- portfolio research and security selection
- initial capitalization/funding
- securities trading
- Fund administration
- custody of Fund assets
- daily valuation of each Fund's portfolio
- liquidity monitoring and management
- risk management, including information security
- shareholder servicing and transfer agency, including shareholder confirmations, recordkeeping, and communications
- legal services (except the independent Trustees' counsel)

- regulatory and portfolio compliance
- financial reporting
- marketing and distribution (except amounts paid by each Fund under Rule 12b-1 plans, if applicable)

Investment Management Services. The nature of the investment management services provided to each Fund is quite complex and allows Fund shareholders access to professional money management, instant diversification of their investments, and liquidity. In evaluating investment performance, the Board expects the Advisor to manage each Fund in accordance with its investment objectives and principal investment strategies. Further, the Trustees recognize that the Advisor has an obligation to monitor trading activities, and in particular to seek the best execution of fund trades, and to evaluate the use of and payment for research. In providing these services, the Advisor utilizes teams of investment professionals who require extensive information technology, research, training, compliance, and other systems to conduct their business. The Board provides oversight of the investment performance process. It regularly reviews investment performance information for each Fund, together with comparative information for appropriate benchmarks over different time horizons. The Trustees also review investment performance information during the management agreement renewal process. If performance concerns are identified, the Board discusses with the Advisor the reasons for such results and any actions being taken to improve performance. The Board found the investment management services provided by the Advisor to each Fund to be satisfactory and consistent with its respective management agreement.

Shareholder and Other Services. Under the management agreements, the Advisor provides each Fund with a comprehensive package of transfer agency, shareholder, and other services. The Board, directly and through its Audit Committee, regularly reviews reports and evaluations of such services at its regular meetings. These reports include, but are not limited to, information regarding the operational efficiency and accuracy of the shareholder and transfer agency services provided, if applicable, staffing levels, shareholder satisfaction, technology support (including information security), new products and services offered to Fund shareholders, securities trading activities, portfolio valuation services, auditing services, and legal and operational compliance activities. The Board found the services provided by the Advisor to each Fund under the respective management agreement to be competitive and of high quality.

Costs of Services and Profitability. The Advisor provides detailed information concerning its cost of providing various services to the Funds, its profitability in managing each Fund (pre- and post-distribution), and its financial results of operation. The Trustees have reviewed with the Advisor the methodology used to prepare this financial information. This information is considered in evaluating the Advisor's financial condition, its ability to continue to provide services under the management agreements, and the reasonableness of the terms of the current management agreements. The Board concluded that the Advisor's profits were reasonable in light of the services provided to the Funds.

Ethics. The Board generally considers the Advisor's commitment to providing quality services to the Funds and to conducting its business ethically. They noted that the Advisor's practices generally meet or exceed industry best practices.

Economies of Scale. The Board also reviewed information provided by the Advisor regarding the possible existence of economies of scale in connection with the management of each Fund. The Board concluded that economies of scale are difficult to measure and predict with precision, especially on a fund-by-fund basis. The Board concluded that the Advisor is sharing economies of scale, to the extent they exist, through its fee structure and through reinvestment in its business, infrastructure, investment capabilities and initiatives to provide shareholders additional content and services.

Comparison to Other Funds' Fees. The management agreements provide that each Fund pays the Advisor a single, all-inclusive (or unified) management fee for providing all services necessary for the management and operation of each Fund, other than brokerage and other transaction fees and expenses relating to acquisition and disposition of portfolio securities, acquired fund fees and expenses, taxes, interest, extraordinary expenses, fund litigation expenses, expenses incurred in connection with the provision of shareholder services and distribution services under a plan adopted pursuant to Investment Company Act Rule 12b-1, and, for certain funds, fees and expenses of each Fund's independent Trustees (including their independent legal counsel). Under the unified fee structure, the Advisor is responsible for providing investment advisory, custody, audit, administrative, compliance, recordkeeping, marketing and shareholder services, or arranging and supervising third parties to provide such services. The Board believes the unified fee structure is a benefit to Fund shareholders because it clearly discloses to shareholders the cost of owning Fund shares, and, since the unified fee cannot be increased without a vote of Fund shareholders, it shifts to the Advisor the risk of increased costs of operating the Funds and provides a direct incentive to minimize administrative inefficiencies. Part of the Board's analysis of fee levels involves reviewing certain evaluative data compiled by an independent provider comparing each Fund's unified fee to the total expense ratios of its peers. The Board concluded that the management fee paid by each Fund to the Advisor under its respective management agreement is reasonable in light of the services provided to the Fund.

Comparison to Fees and Services Provided to Other Clients of the Advisor. The Board also requested and received information from the Advisor concerning the nature of the services, fees, costs, and profitability of its advisory services to funds or other advisory clients managed similarly to the Funds. They observed that these varying types of client accounts require different services and involve different regulatory and entrepreneurial risks than the management of each Fund. The Board analyzed this information and concluded that the fees charged and services provided to each Fund were reasonable by comparison.

Payments to Intermediaries. The Trustees also requested and received a description of payments made to intermediaries by each Fund and the Advisor and services provided in response thereto. These payments could include various payments made by each Fund or the Advisor to different types of intermediaries and recordkeepers for distribution and service activities provided for each Fund. The Trustees reviewed such information and received representations from the Advisor that all such payments by the Advisor were made from the Advisor's resources and reasonable profits.

Collateral or "Fall-Out" Benefits Derived by the Advisor. The Board considered the possible existence of collateral benefits the Advisor may receive as a result of its relationship with the Funds. They concluded that the Advisor's primary business is managing funds and it generally does not use fund or shareholder information to generate profits in other lines of business, and therefore does not derive any significant collateral benefits from them. The Board noted that additional assets from other clients may offer the Advisor some benefit from increased leverage with prospective clients, service providers, and counterparties. The Board also determined that the Advisor is able to provide investment management services to certain clients other than the Funds, at least in part, due to its existing infrastructure built to serve the fund complex. The Board concluded that appropriate allocation methodologies had been employed to assign resources and the cost of those resources to these other clients.

Existing Relationship. The Board also considered whether there was any reason for not continuing the existing arrangement with the Advisor. In this regard, the Board was mindful of the potential disruptions of each Fund's operations and various risks, uncertainties, and other effects that could occur as a result of a decision not to continue such relationship. In particular, the Board recognized that most shareholders have invested in each Fund on the strength of the Advisor's industry standing and reputation and in the expectation that the Advisor will have a continuing role in providing advisory services to each Fund.

Set forth below are certain of the Fund-specific factors that the Board considered in addition to the other factors described herein:

Avantis Emerging Markets Equity ETF - The Fund's performance was above its benchmark for the one-, three-, and five-year periods reviewed by the Board. The unified fee charged to shareholders of the Fund was the lowest of the total expense ratios of the Fund's peer expense universe and peer expense group.

Avantis Emerging Markets ex-China Equity ETF - The unified fee charged to shareholders of the Fund was below the median of the total expense ratios of the Fund's peer expense universe and was the lowest of its peer expense group.

Avantis Emerging Markets Small Cap Equity ETF - The Fund's performance was below its benchmark for the one-year period reviewed by the Board. The unified fee charged to shareholders of the Fund was below the median of the total expense ratios of the Fund's peer expense universe and was the lowest of its peer expense group.

Avantis Emerging Markets Value ETF - The Fund's performance was above its benchmark for the one- and three-year periods reviewed by the Board. The unified fee charged to shareholders of the Fund was below the median of the total expense ratios of the Fund's peer expense universe and was within the range of its peer expense group.

Avantis International Equity ETF - The Fund's performance was above its benchmark for the one-, three-, and five-year periods reviewed by the Board. The unified fee charged to shareholders of the Fund was the lowest of the total expense ratios of the Fund's peer expense universe and peer expense group.

Avantis International Large Cap Value ETF - The Fund's performance was below its benchmark for the one- and three-year periods reviewed by the Board. The unified fee charged to shareholders of the Fund was the lowest of the total expense ratios of the Fund's peer expense universe and peer expense group.

Avantis International Small Cap Equity ETF - The Fund's performance was above its benchmark for the one-year period reviewed by the Board. The unified fee charged to shareholders of the Fund was below the median of the total expense ratios of the Fund's peer expense universe and was the lowest of its peer expense group.

Avantis International Small Cap Value ETF - The Fund's performance was above its benchmark for the one-, three-, and five-year periods reviewed by the Board. The unified fee charged to shareholders of the Fund was below the median of the total expense ratios of the Fund's peer expense universe and was within the range of its peer expense group.

Avantis Responsible Emerging Markets Equity ETF - The Fund's performance was above its benchmark for the one-year period reviewed by the Board. The unified fee charged to shareholders of the Fund was the lowest of the total expense ratios of the Fund's peer expense universe and peer expense group.

Avantis Responsible International Equity ETF - The Fund's performance was above its benchmark for the one-year period reviewed by the Board. The unified fee charged to shareholders of the Fund was below the median of the total expense ratios of the Fund's peer expense universe and was the lowest of its peer expense group.

Conclusion of the Trustees. As a result of this process, the Board, including all of the independent Trustees, taking into account all of the factors discussed above and the information provided by the Advisor and others in connection with its review and received over time, determined that the terms of the management agreements are fair and reasonable and that the management fee charged to each Fund is fair in light of the services provided and that the management agreements between the Funds and the Advisor should be renewed for an additional one-year period.
