DIMENSIONAL ETF TRUST
DEFINITIONS OF ABBREVIATIONS AND FOOTNOTES

Schedules of Investments

Investment Abbreviations

ADR	American Depositary Receipt
CVR	Contingent Value Right
PLC	Public Limited Company
SA	Special Assessment

Investment Footnotes

*	Non-Income Producing Securities
<	Security was valued using significant unobservable inputs as of October 31, 2025
†	See Note B to Financial Statements.
#	Total or Partial Securities on Loan
\$	Affiliated Fund
@	Security purchased with cash collateral received from Securities on Loan

Financial Highlights

(a)	Computed using average shares outstanding
(b)	Net asset value total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period, if any, and redemption on the last day of the period at net asset value. This percentage is not an indication of the performance of a shareholder's investment in the Fund based on market value due to differences between the market price of the shares and the net asset value per share of the Fund.
(c)	Not annualized for periods less than one year
(d)	Annualized for periods less than one year
(e)	Excludes impact of in-kind transactions

All Statements, Schedules and Notes to Financial Statements

—	Amounts designated as — are either zero or rounded to zero
SEC	Securities and Exchange Commission
∪	Commencement of Operations

DIMENSIONAL ETF TRUST

NOTES TO FINANCIAL STATEMENTS

A. Organization

The Dimensional ETF Trust (the “Trust”) was organized on June 16, 2020 as a Delaware statutory trust. The Trust is an open-end management investment company, registered under the Investment Company Act of 1940 (the “1940 Act”). As of October 31, 2025, the Trust is comprised of forty-one operational exchange-traded funds (“ETFs”) and is authorized to issue an unlimited number of shares of beneficial interest (“Shares”) for each fund representing interests in separate portfolios of securities. The accompanying financial statements are those of the following (individually referred to as a “Fund” or collectively as the “Funds”):

Fund	Short Name
Dimensional US Core Equity Market ETF	US Core Equity ETF
Dimensional US Core Equity 1 ETF	US Core Equity 1 ETF
Dimensional US High Profitability ETF	US High Profitability ETF
Dimensional US Large Cap Value ETF	US Large Cap Value ETF
Dimensional US Small Cap Value ETF	US Small Cap Value ETF
Dimensional US Large Cap Vector ETF	US Large Cap Vector ETF
Dimensional US Vector Equity ETF	US Vector Equity ETF
Dimensional US Real Estate ETF	US Real Estate ETF

The assets of each Fund are segregated and a shareholder’s interest is limited to the Fund in which Shares are held. The Funds are investment companies and, accordingly, follow the accounting and reporting guidance under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946, “Financial Services – Investment Companies”.

The Board of Trustees of the Trust (the “Board”) is responsible for establishing the Trust’s policies and for overseeing the management of the Trust. Under the Trust’s organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust. In the normal course of business, the Trust enters into contracts that contain a variety of representations and warranties that provide general indemnification. The Trust’s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust and/or its affiliates that have not yet occurred. However, based on prior experience, the Trust expects the risk of loss to be remote.

B. Significant Accounting Policies

Shares of the Funds are listed and traded on the NYSE Arca, Inc. Market prices for the Shares may be different from their net asset value (“NAV”). The Funds issue and redeem Shares on a continuous basis at NAV only in large blocks of Shares called “Creation Units”. Creation Units are issued and redeemed principally in-kind (and an amount of cash). Once created, Shares generally trade in the secondary market at market prices that change throughout the day in amounts less than a Creation Unit. Shares of each Fund may be purchased or redeemed directly only by certain financial institutions (“Authorized Participants”). An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a DTC participant and, in each case, must have executed a Participant Agreement with the Funds’ distributor (the “Distributor”). Most retail investors do not qualify as Authorized Participants nor have the resources to buy and sell whole Creation Units. Therefore, they are unable to purchase or redeem Shares directly from a Fund.

The following is a summary of significant accounting policies consistently followed by each Fund in the preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America (“GAAP”). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the period. Actual results could differ from those estimates.

1. Security Valuation

The Funds hold investments at fair value. Fair value is defined as the price that would be expected to be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The valuation techniques used to determine fair value are further described below.

Security values are ordinarily obtained through the use of independent pricing services pursuant to procedures approved by the Board. Pursuant to these procedures, the Funds may use a pricing service, bank, or broker-dealer experienced in such matters to value the Funds' securities. When reliable market quotations are not readily available for any security, the fair value of that security will be determined by a committee established by Dimensional Fund Advisors LP (the "Advisor"), with input from certain third-party pricing services and others, in accordance with Rule 2a-5 under the 1940 Act pursuant to procedures approved by the Board. The fair valuation process is designed to value the subject security at the price the Funds would reasonably expect to receive upon its current sale. Additional consideration is given to securities that have experienced a decrease in the volume or level of activity or to circumstances that indicate that a transaction is not orderly.

The Trust has a three-tier fair value hierarchy that is dependent upon the various inputs used to determine the value of the Funds' investments. The valuation techniques described below maximize the use of observable inputs and minimize the use of unobservable inputs in determining fair value. These inputs are summarized in the three broad levels listed below:

- Level 1 – Inputs are quoted prices in active markets for identical securities (including equity securities, open-end investment companies, and futures contracts)
- Level 2 – Other observable pricing inputs at the measurement date (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – Significant unobservable pricing inputs at the measurement date (including the Funds' own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments.

Rights and warrants are valued at the last sales price on a national securities exchange. If these instruments are not scheduled to trade for a certain period, they are generally valued intrinsically based on the terms of the issuance and the price of the underlying security. These instruments are typically categorized as Level 1 in the hierarchy unless intrinsic value is used and then would be categorized as Level 2 in the hierarchy.

Equity securities (including exchange-traded Underlying Funds and over-the-counter securities) traded on a securities exchange are valued at the official closing price or the last reported sales price on the principal exchange. Equity securities quoted by Nasdaq are valued at the Nasdaq official closing price. If there is no last reported sale on the principal exchange or official closing price of the day, and in the case of over-the-counter securities, the Funds value the securities at the mean between the most recent quoted bid and asked prices. In each of these situations, securities are typically categorized as Level 1 and Level 2, respectively, in the hierarchy. The investment in The DFA Short Term Investment Fund (the "Short Term Series"), which is an open-end management investment company available for purchase only by the Funds and affiliated funds, is categorized as Level 2 in the hierarchy.

Derivative Instruments: Futures contracts are valued using the settlement price established each day on the exchange on which they are traded. The value of such futures contracts held by the Fund is determined each day as of such exchange close.

Listed derivatives, such as futures, that are actively traded are valued based on quoted prices from the exchange and are categorized as Level 1 in the hierarchy. Over-the-counter derivative contracts do not require material subjectivity as pricing inputs are observed from quoted markets and are categorized as Level 2 in the hierarchy.

Securities for which no market quotations are readily available (including restricted securities), or for which market quotations have become unreliable, are valued in good faith at fair value in accordance with Rule 2a-5 under the 1940 Act pursuant to procedures approved by the Board. Fair value pricing may also be used if events that have a significant effect on the value of an investment (as determined in the discretion of the Advisor) occur before

the NAV is calculated. When fair value pricing is used, the prices of securities used by the Funds may differ from the quoted or published prices for the same securities on their primary markets or exchanges. These securities are typically categorized as Level 2 or Level 3 in the hierarchy.

2. Security Transactions and Related Income

Investment transactions are accounted for no later than the first calculation of the NAV on the business day following the trade date. For financial reporting purposes, however, security transactions are accounted for on the trade date on the last business day of the reporting period. Securities' gains and losses are calculated on the identified cost basis. Interest income and expenses are accrued daily. Dividends, less foreign tax withholding, if any, are recorded on the ex-dividend date. Investment income from non-U.S. sources received by a Fund is generally subject to non-U.S. withholding taxes at rates ranging up to 30%. Such withholding taxes may be reduced or eliminated under the terms of applicable U.S. income tax treaties. Such taxes are accrued on a daily basis and due upon sale of individual securities. Non-cash dividend income received in the form of securities in lieu of cash, if any, is recorded at the fair value of the securities received.

3. Restricted Securities

A restricted security is a security that cannot be offered for public sale without prior registration under the Securities Act of 1933 (the "1933 Act") (absent an exemption). Whether a restricted security is illiquid is determined pursuant to the applicable provisions of the Funds' liquidity risk management program. Not all restricted securities are considered illiquid.

4. Dividends and Distributions to Shareholders

Distributions are recorded on the ex-dividend date. The Funds intend to distribute to their shareholders net investment income, if any, at least quarterly and net realized capital gains, if any, at least annually. The amount of dividends from net investment income and net realized gains is determined in accordance with federal income tax regulations, which may differ from GAAP.

5. Deferred Compensation Plan

Each eligible Trustee (each a "Trustee" and collectively, the "Trustees") of the Trust may elect to participate in the Fee Deferral Plan for Independent Directors and Trustees (the "Plan"). Under the Plan, effective January 1, 2002, such Trustees may defer payment of all or a portion of their total fees earned as a Trustee. These deferred amounts may be treated as though such amounts had been invested in shares of the following funds, each of which are affiliates of the Funds, and advised by the Advisor: the U.S. Large Cap Value Portfolio, U.S. Core Equity 1 Portfolio, U.S. Large Company Portfolio, U.S. Vector Equity Portfolio, U.S. Micro Cap Portfolio, DFA International Value Portfolio, International Core Equity Portfolio, Emerging Markets Portfolio, Emerging Markets Core Equity Portfolio, DFA Inflation-Protected Securities Portfolio, and/or DFA Two-Year Global Fixed Income Portfolio. Contributions made under the Plan and the change in unrealized appreciation (depreciation) and income are included in Trustees' Fees & Expenses.

Each Trustee has the option to receive the distribution of proceeds by one of the following methods: lump sum, annual installments over a period of agreed-upon years, or quarterly installments over a period of agreed-upon years. Each Trustee shall have the right in a notice of election (the "Notice") to defer the receipt of the Trustee's deferred compensation until a date specified by such Trustee in the Notice, which date may not be sooner than the earlier of: (i) the first business day of January following the year in which such Trustee ceases to be a member of the Board and (ii) five years following the effective date of the Trustee's first deferral election. If a Trustee who elects to defer fees fails to designate in the Notice a time or date as of which payment of the Trustee's deferred fee account shall commence, payment of such amount shall commence as of the first business day of January following the year in which the Trustee ceases to be a member of the Board (unless the Trustee files an amended Notice selecting a different distribution date).

6. Other

Expenses directly attributable to a Fund are charged directly. Common expenses of the Funds are allocated using methods approved by the Board, generally based on average net assets.

Tax reclaims receivable are recorded based on the Funds' interpretation of country-specific taxation of accrued dividend and interest income and may be subject to change due to changes in country-specific tax regulations or how the Funds interpret the taxation of dividend income or interest income and the related reclaimable amounts.

C. Derivative Instruments

All open derivative positions at year end are reflected on each Fund's Schedule of Investments. The following is a description of the derivative instruments utilized by the Funds, including the primary underlying risk exposure related to each instrument type. The Funds' derivative contracts are not accounted for as hedging instruments under GAAP.

1. Futures Contracts

Each Fund may purchase or sell futures and options on futures contracts for equity securities and indices to increase or decrease market exposure based on actual or expected cash inflows to or outflows from the Fund. Upon entering into futures contracts, the Funds are required to pledge to the broker an amount of cash and/or other assets equal to a certain percentage of the contract amount (initial margin deposit). Subsequent payments, known as "variation margin", are made or received each day, depending on the daily fluctuations in the fair value of the underlying security. The Funds recognize an unrealized gain or loss equal to the daily variation margin. Should market conditions move unexpectedly, the Funds may not achieve the anticipated benefits of the futures contracts and may realize a loss. Futures contracts involve, to varying degrees, elements of market risk (generally equity price risk related to stock futures) and exposure to loss in excess of the amounts reflected on the Statements of Assets and Liabilities as "Futures Variation Margin". The primary risks associated with the use of futures contracts are the imperfect correlation between the change in market value of the securities held by the Funds and the prices of futures contracts, the possibility of an illiquid market, and the possibility that the Fund could lose more than the initial margin requirements. The Funds entering into stock index futures are subject to equity price risk from those futures contracts. Counterparty credit risk related to exchange-traded futures is minimal because the exchange's clearinghouse, as counterparty to all exchange-traded futures, guarantees the futures against default.

The average volume (based on the open positions at each fiscal month-end) of derivative activity for the year ended October 31, 2025 was as follows (amounts in thousands):

	<u>Futures *</u>
US Core Equity ETF	\$7,598
US Small Cap Value ETF	8,108
US Real Estate ETF	310

* Average Notional Value of futures contracts.

Summary of Derivative Instruments:

The following is a summary of the realized and change in unrealized gains and losses from the Funds' derivative instrument holdings categorized by primary risk exposure for the year ended October 31, 2025 (amounts in thousands):

	Realized Gain (Loss) from: Futures (1)
Equity Risk Exposure:	
US Core Equity ETF	\$2,375
US Core Equity 1 ETF	(405)
US High Profitability ETF	(5,033)
US Large Cap Value ETF	1,430
US Small Cap Value ETF	683
US Large Cap Vector ETF	25
US Vector Equity ETF	58
US Real Estate ETF	(127)

(1) Presented on Statements of Operations as Net Realized Gain (Loss) from: Futures.

Offsetting of Derivative Assets and Derivative Liabilities:

In order to better define contractual rights and to secure rights that will help mitigate counterparty risk, certain Funds have entered into an International Swaps and Derivatives Association, Inc. Master Agreement ("ISDA Master Agreement") or a similar agreement with certain derivative contract counterparties. An ISDA Master Agreement is a bilateral agreement between a Fund and a counterparty that governs over-the-counter ("OTC") derivatives and forward currency contracts and typically contains, among other things, provisions in the event of a default and/or termination event and may also include collateral posting items. Under an ISDA Master Agreement, a Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments' payables and/or receivables with collateral held and/or posted, if any, and create one single net payment. The provisions of the ISDA Master Agreement typically permit a single net payment in the event of a default (close-out), including the bankruptcy or insolvency of the counterparty. However, bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on or prohibitions against the right of offset in bankruptcy, insolvency, or other events.

For financial reporting purposes, a Fund does not offset derivative assets and derivative liabilities that are subject to netting arrangements in the Statements of Assets and Liabilities.

D. Investment Advisory and Other Contractual Services

1. Investment Advisory Fees

The Advisor serves as the investment advisor to the Funds pursuant to an investment management agreement. Subject at all times to the oversight and approval of the Board, the Advisor is responsible for the overall management of the Funds.

For the year ended October 31, 2025, each Fund's investment management fee was accrued daily and paid monthly to the Advisor based on the following effective annual rate of average daily net assets:

	Management Fee
US Core Equity ETF	0.12%
US Core Equity 1 ETF	0.12%
US High Profitability ETF	0.19%
US Large Cap Value ETF	0.19%
US Small Cap Value ETF	0.28%
US Large Cap Vector ETF *	0.17%
US Vector Equity ETF **	0.21%

	Management Fee
US Real Estate ETF.....	0.17%

* Effective as of February 28, 2025, the investment management fee payable by the US Large Cap Vector ETF was reduced from 0.19% to 0.16%.

** Effective as of February 28, 2025, the investment management fee payable by the US Vector Equity ETF was reduced from 0.25% to 0.20%.

Pursuant to a Fee Waiver and Expense Assumption Agreement (the “Fee Waiver Agreement”), the Advisor has contractually agreed to waive certain fees, and in certain instances, assume certain expenses of the following Funds. For each Fund, the Advisor has contractually agreed to waive all or a portion of its management fee and assume the ordinary operating expenses of the Fund (excluding the expenses that the Fund incurs indirectly through its investment in other investment companies) (“ETF Fund Expenses”) to the extent necessary to limit the ETF Fund Expenses of the Fund, on an annualized basis, to the rate listed below as percentage of average net assets (the “Expense Limitation Amount”). The Fee Waiver Agreement will remain in effect through February 28, 2026, may only be terminated by the Trust’s Board of Trustees prior to that date, and shall continue in effect from year to year thereafter unless terminated by the Trust or the Advisor. During the year ended October 31, 2025, the Funds had expense limits based on a percentage of average net assets on an annualized basis, as listed below. At any time that the ETF Fund Expenses of a Fund are less than the applicable Expense Limitation Amount listed below, the Advisor retains the right to recover fees previously waived and/or expenses previously assumed to the extent that the expense ratio following such recovery would be less than the Expense Limitation Amount that was in place when such prior year fees were waived and/or expenses assumed and less than the current Expense Limitation Amount in place for the Fund. The waived fees/assumed expenses during the year ended October 31, 2025, recovered previously waived fees/assumed expenses during the year ended October 31, 2025, and previously waived fees/assumed expenses subject to future recovery by the Advisor are reflected below (amounts in thousands). The Trust, on behalf of a Fund, is not obligated to reimburse the Advisor for fees previously waived or expenses previously assumed by the Advisor more than thirty-six months before the date of recovery.

	Expense Limitation Amount	Waived Fees/ Assumed Expenses	Recovery of Previously Waived Fees/ Assumed Expenses
US Core Equity 1 ETF.....	0.14%	\$57	\$48
US High Profitability ETF.....	0.22%	—	—
US Large Cap Value ETF.....	0.22%	—	—
US Small Cap Value ETF.....	0.31%	—	—
US Large Cap Vector ETF *	0.19%	5	20
US Vector Equity ETF **	0.25%	57	—
US Real Estate ETF.....	0.19%	37	25

* The expense limitation amount was reduced from 0.22% to 0.19% effective February 28, 2025.

** The expense limitation amount was reduced from 0.28% to 0.25% effective February 28, 2025.

	Previously Waived Fees/Assumed Expenses Subject to Future Recovery			
	Expiring			
	10/31/2026	10/31/2027	10/31/2028	Total
US Core Equity 1 ETF.....	\$—	\$116	\$57	\$173
US Large Cap Vector ETF.....	—	26	5	31
US Vector Equity ETF.....	—	7	57	64
US Real Estate ETF.....	65	58	37	160

US Core Equity ETF (a “Unitary Fee Fund”) pays the Advisor a unitary management fee for managing the Fund’s assets. Pursuant to the investment management agreement with the Trust, on behalf of the Unitary Fee Fund, the Advisor is responsible for substantially all ordinary fund operating expenses, except for (i) the fee paid under the investment management agreement; (ii) payments under the Fund’s 12b-1 plan (if any); (iii) brokerage expenses (including any costs incidental to transactions in fund securities, instruments and other investments); (iv) taxes; (v)

interest expenses (including borrowing costs and dividend expenses on securities sold short and overdraft charges); (vi) litigation expenses (including litigation to which the Trust or Fund may be a party and indemnification of the Trustees and officers with respect thereto); (vii) Trustees' fees and expenses; (viii) legal expenses of counsel to the Independent Trustees; (ix) Chief Compliance Officer ("CCO") compensation; (x) acquired fund fees and expenses (if any); and (xi) other non-routine or extraordinary expenses.

For the Unitary Fee Fund, pursuant to a separate contractual arrangement, the Advisor arranges for the provision of CCO services with respect to the Fund, and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees, and counsel to the Independent Trustees. The Advisor receives a fee of up to 0.0044% of the Fund's average daily net assets for providing such services and paying such expenses. The Advisor provides CCO services to the Trust.

2. *Earned Income Credit*

Additionally, certain Funds have entered into arrangements with their custodian whereby net interest earned on uninvested cash balances was used to reduce a portion of each Fund's custody expenses. Custody expense in the accompanying financial statements is presented before reduction for credits. The impact of such credits is generally less than one basis point of each Fund's net assets.

3. *Administration, Accounting, Transfer Agent, and Custodian Fees*

Citi Fund Services Ohio, Inc. serves as the Funds' Administrator and Fund Accountant pursuant to a Services Agreement with the Trust. Citibank, N.A. serves as the Funds' Custodian and Transfer Agent pursuant to a Global Custodial and Agency Services Agreement with the Trust.

4. *Distribution*

DFA Securities, LLC, a wholly-owned subsidiary of the Advisor, is the principal underwriter and distributor for the Funds' Shares. The Distributor does not maintain any secondary market in the Funds' shares. No compensation is paid by the Funds to the Distributor under the distribution agreement.

5. *Fees Paid to Officers and Trustees*

Certain Officers and Trustees of the Advisor are also Officers and Trustees of the Trust; however, such Officers and Trustees (with the exception of the CCO, with respect to the Funds, except the Unitary Fee Fund) receive no compensation from the Trust. For the year ended October 31, 2025, the total related amount paid by the Trust to the CCO was \$111 (in thousands). The total related amounts paid by each of the Funds are included in "Other Expenses" on the Statements of Operations.

E. **Deferred Compensation**

As of October 31, 2025, the total liability for deferred compensation to Trustees is included in "Accrued Expenses and Other Liabilities" on the Statements of Assets and Liabilities as follows (amounts in thousands):

	Total
US Core Equity 1 ETF	\$3
US High Profitability ETF	22
US Large Cap Value ETF.....	9
US Small Cap Value ETF.....	12
US Large Cap Vector ETF.....	1
US Vector Equity ETF.....	—
US Real Estate ETF.....	4

F. Federal Income Taxes

Each Fund has qualified and intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code for federal income tax purposes and to distribute substantially all of its taxable income and net capital gains to its shareholders. Accordingly, no provision has been made for federal income taxes.

Distributions from net investment income and net realized capital gains are determined in accordance with U.S. federal income tax regulations, which may differ from those amounts determined under GAAP. These book/tax differences are either temporary or permanent in nature. To the extent that these differences are permanent, they are charged or credited to paid-in capital or distributable earnings, undistributed net investment income or accumulated net realized gains or losses, as appropriate, in the period that the differences arise. Accordingly, the permanent differences as of October 31, 2025, can occur as a result of realized gains on securities considered to be “passive foreign investment companies,” non-deductible expenses, the use of accumulated earnings and profits distributed to shareholders on redemptions of shares as part of the dividends paid deduction for income tax purposes, net foreign currency gains/losses, distributions received from real estate investment trusts and distribution redesignations, redemption in-kind transactions, and were reclassified to the accounts mentioned above. These reclassifications had no effect on net assets or net asset value per share.

The tax character of dividends and distributions declared and paid during the years ended October 31, 2024 and October 31, 2025, were as follows (amounts in thousands):

	Net Investment Income and Short-Term Capital Gains	Long-Term Capital Gains	Total
US Core Equity ETF			
2024	\$63,580	\$—	\$63,580
2025	91,220	—	91,220
US Core Equity 1 ETF			
2024	5,180	—	5,180
2025	17,975	—	17,975
US High Profitability ETF			
2024	70,325	—	70,325
2025	95,077	—	95,077
US Large Cap Value ETF			
2024	32,065	—	32,065
2025	62,445	—	62,445
US Small Cap Value ETF			
2024	38,725	—	38,725
2025	75,425	—	75,425
US Large Cap Vector ETF			
2024	2,175	—	2,175
2025	5,741	—	5,741
US Vector Equity ETF			
2025	1,940	—	1,940
US Real Estate ETF			
2024	25,250	—	25,250
2025	35,438	—	35,438

US Vector Equity ETF commenced operations on September 10, 2024 and did not pay any distributions for the period ended October 31, 2024.

As of October 31, 2025, the components of distributable earnings (accumulated losses) were as follows (amounts in thousands):

	Undistributed Net Investment Income and Short-Term Capital Gains	Undistributed Long-Term Capital Gains	Capital Loss Carryforwards	Unrealized Appreciation (Depreciation) (1)	Total Net Distributable Earnings (Accumulated Losses)
US Core Equity ETF	\$5,099	\$—	\$(273,944)	\$3,007,469	\$2,738,624
US Core Equity 1 ETF	731	—	(49,664)	387,417	338,484
US High Profitability ETF	1,226	—	(192,120)	1,874,282	1,683,388
US Large Cap Value ETF	2,181	—	(110,789)	437,978	329,370
US Small Cap Value ETF	1,529	—	(182,341)	271,063	90,251
US Large Cap Vector ETF	74	—	(8,155)	56,583	48,502
US Vector Equity ETF	244	—	(4,428)	38,396	34,212
US Real Estate ETF	11,014	—	(46,254)	54,444	19,204

(1) The difference between book-basis and tax-basis unrealized appreciation (depreciation) are attributable primarily to: tax deferral of losses on wash sales and amortization of certain expenses.

For federal income tax purposes, the Funds measure their capital loss carryforwards annually at October 31, their fiscal year end. Capital loss carryforwards may be carried forward and applied against future capital gains. As of October 31, 2025, the Funds had the following capital loss carryforwards available to offset future realized capital gains with no expiration date (amounts in thousands):

	Total
US Core Equity ETF	\$273,944
US Core Equity 1 ETF	49,664
US High Profitability ETF	192,120
US Large Cap Value ETF	110,789
US Small Cap Value ETF	182,341
US Large Cap Vector ETF	8,155
US Vector Equity ETF	4,428
US Real Estate ETF	46,254

During the year ended October 31, 2025, the Funds did not use capital loss carryforwards to offset realized capital gains for federal income tax purposes.

As of October 31, 2025, the total cost and aggregate gross unrealized appreciation (depreciation) of securities for federal income tax purposes were different from amounts reported for financial reporting purposes, as follows (amounts in thousands):

	Tax Cost of Securities	Unrealized Appreciation	Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
US Core Equity ETF	\$7,152,009	\$3,263,287	\$(255,818)	\$3,007,469
US Core Equity 1 ETF	1,929,025	439,395	(51,978)	387,417
US High Profitability ETF	8,172,902	2,167,781	(293,499)	1,874,282
US Large Cap Value ETF	4,034,848	630,641	(192,663)	437,978
US Small Cap Value ETF	5,477,937	700,974	(429,911)	271,063
US Large Cap Vector ETF	361,644	74,127	(17,544)	56,583
US Vector Equity ETF	275,683	48,033	(9,637)	38,396
US Real Estate ETF	1,382,057	133,562	(79,118)	54,444

The difference between GAAP-basis and tax-basis unrealized gains (losses) can occur as a result of wash sales, and net mark-to-market gains (losses) on regulated futures contracts, and differences in the tax treatment of passive foreign investment company investments or other investments.

In accordance with GAAP, the Funds recognize the tax benefits of uncertain tax positions taken or expected to be taken in a tax return only when the position is more likely than not to be sustained, assuming examination by tax authorities. Management has analyzed the Funds' tax positions and has concluded that no additional provision for income tax is required in the Funds' financial statements. The Funds are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months. The Funds' federal tax returns for the prior three fiscal years, if applicable, remain subject to examination by the Internal Revenue Service.

G. Securities Lending

As of October 31, 2025, the Funds had securities on loan to brokers/dealers for which the Funds received cash collateral. The contractual maturity of cash collateral received under the securities lending agreement is classified as overnight and continuous. Additionally, the Funds received non-cash collateral consisting of short-and/or long-term U.S. Treasuries and U.S. government agency securities as follows (amounts in thousands):

	Non-Cash Collateral Market Value
US Core Equity ETF.....	\$3,077
US Core Equity 1 ETF	1,031
US High Profitability ETF	926
US Large Cap Value ETF.....	1,206
US Small Cap Value ETF.....	24,424
US Large Cap Vector ETF.....	73

Each Fund with securities on loan invests the cash collateral, as described below, and records a liability for the return of the collateral during the period the securities are on loan. Loans of securities are expected at all times to be secured by collateral in an amount (i) equal to at least 100% of the current market value of the loaned securities with respect to securities of the U.S. government or its agencies, (ii) generally equal to 102% of the current market value of the loaned securities with respect to U.S. securities, and (iii) generally equal to 105% of the current market value of the loaned securities with respect to foreign securities. However, daily market fluctuations could cause the Funds' collateral to be lower or higher than the expected thresholds. If this were to occur, the collateral would be adjusted the next business day to ensure adequate collateralization. In the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. If the borrower fails to return loaned securities, cash collateral being maintained by the borrower is insufficient to cover the value of loaned securities, and such collateral insufficiency is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Fund or, at the option of the lending agent, to replace the securities. In the event of the bankruptcy of the borrower, the Fund could experience delay in recovering the loaned securities or only recover cash or a security of equivalent value.

Subject to its stated investment policies, a Fund with securities on loan will generally invest the cash collateral received for the loaned securities in the Short Term Series, an affiliated registered ultrashort term bond fund advised by the Advisor for which the Advisor receives a management fee of 0.05% of the average daily net assets of the Short Term Series. Income received from the Short Term Series is netted with fees for securities lending and collateral investment expenses and with other payments to and from borrowers of securities. Each Fund also may invest the cash collateral received for the loaned securities in securities of the U.S. government or its agencies, repurchase agreements collateralized by securities of the U.S. government or its agencies, and affiliated or unaffiliated money market funds that are registered or unregistered. For purposes of this paragraph, agencies include both agency debentures and agency mortgage-backed securities. Additionally, a Fund will be able to terminate the loan at any time and will receive reasonable interest on the loan, as well as amounts equal to any dividends, interest or, other distributions on the loaned securities. However, dividend income received from loaned securities may not be eligible for taxation at qualified dividend income rates.

H. Affiliated Trades

Cross trades for the year ended October 31, 2025, if any, were executed by the Funds pursuant to procedures adopted by the Board to ensure compliance with Rule 17a-7 under the 1940 Act. Cross trading is the buying or selling of fund securities between series of investment companies, or between a series of an investment company and another entity, that are or could be considered affiliates by virtue of a common investment advisor (or affiliated investment advisors), common Trustees and/or common Officers. At its regularly scheduled meetings, the CCO certifies to the Board that the 17a-7 transactions entered into by the Funds complied with the Rule 17a-7 Procedures adopted by the Board.

For the year ended October 31, 2025, cross trades by the Funds under Rule 17a-7 were as follows (amounts in thousands):

	<u>Purchases</u>	<u>Sales</u>	<u>Realized Gain (Loss)</u>
US Core Equity ETF	\$34,562	\$85,600	\$(12,267)
US Core Equity 1 ETF	16,652	14,327	(6,632)
US High Profitability ETF	101,859	87,687	(25,775)
US Large Cap Value ETF	93,538	59,580	(23,734)
US Small Cap Value ETF	110,565	57,961	(19,736)
US Large Cap Vector ETF	8,046	5,375	(1,598)
US Real Estate ETF	7,782	4,614	(794)

For the year ended October 31, 2025, transactions related to Affiliated Investment Companies, excluding in-kind redemptions, are presented below.

The amounts presented below may differ from the respective amounts presented in the corresponding Schedules of Investments, Statements of Assets and Liabilities or Statements of Operations due to rounding. The amounts are as follows (amounts in thousands):

	<u>Balance at October 31, 2024</u>	<u>Purchases at Cost</u>	<u>Proceeds from Sales</u>	<u>Net Realized Gain (Loss) on Sales</u>	<u>Change in Unrealized Appreciation (Depreciation)</u>	<u>Balance at October 31, 2025</u>	<u>Shares as of October 31, 2025</u>	<u>Dividend Income</u>	<u>Capital Gains Distributions</u>

I. Investment Transactions

Purchases and sales of investments, excluding in-kind transactions and short-term investments, for the year ended October 31, 2025 were as follows (amounts in thousands):

	Purchases	Sales
US Core Equity ETF	\$588,320	\$417,279
US Core Equity 1 ETF	186,286	86,442
US High Profitability ETF	1,093,989	259,427
US Large Cap Value ETF	618,910	188,300
US Small Cap Value ETF	1,007,008	413,159
US Large Cap Vector ETF	37,122	17,503
US Vector Equity ETF	27,028	12,280
US Real Estate ETF	160,399	92,353

In-kind transactions for the year ended October 31, 2025 were as follows (amounts in thousands):

	Purchases	Sales
US Core Equity ETF	\$1,981,421	\$292,346
US Core Equity 1 ETF	1,034,205	99,326
US High Profitability ETF	2,098,461	920,765
US Large Cap Value ETF	1,595,688	476,592
US Small Cap Value ETF	1,595,005	769,964
US Large Cap Vector ETF	154,247	106,468
US Vector Equity ETF	191,064	9,782
US Real Estate ETF	273,802	78,287

There were no purchases or sales of U.S. government securities during the year ended October 31, 2025.

J. Capital Shares Transactions

Shares are issued and redeemed by each Fund, solely with Authorized Participants, and only in aggregations of a specified number of shares or multiples thereof at NAV. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail on the Statements of Changes in Net Assets.

The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind deposit of a designated basket of securities, which constitutes an optimized representation of the securities of that Fund's specified universe, and an amount of cash. Investors purchasing and redeeming Creation Units may be charged a

transaction fee to cover the transfer and other transactional costs it incurs to issue or redeem Creation Units. The Advisor may increase, decrease or otherwise modify the creation transaction fee to an amount that, in its judgment, is necessary or appropriate to recoup for the Fund the costs it may incur as a result of such purchases, or to otherwise eliminate or reduce so far as practicable any dilution of the value of the Shares.

Such transactions fees are treated as increases in capital and are disclosed in the Funds' Statements of Changes in Net Assets.

From time to time, settlement of securities related to subscriptions-in-kind or redemptions-in-kind may be delayed. In such cases, securities related to in-kind contributions are reflected as "Due from Custodian" and securities related to in-kind redemptions are reflected as "Securities Payable Related to In-Kind Transactions" on the Statements of Assets and Liabilities.

When an Authorized Participant fails to deliver one or more of the securities within a designated basket (in the case of a subscription-in-kind), fails to deliver the Fund ETF Shares (in the case of a redemption-in-kind), or is required by the Fund, prior to settlement, to accommodate the trading of foreign securities in local markets, the Fund may require the Authorized Participant to deliver and maintain cash collateral in accordance with the Authorized Participant agreement. Daily market fluctuations could cause the value of the missing securities or Fund ETF Shares to be more or less than the value of the collateral received and when this occurs, the collateral is adjusted. The Fund records an asset and a corresponding liability for the return of the collateral that are reflected as "Collateral for ETF Capital Activity" on the Statements of Assets and Liabilities.

K. Line of Credit and Interfund Lending Program

The Trust, together with other Dimensional-advised funds, has entered into a \$700 million unsecured line of credit with its custodian bank effective December 26, 2024. A line of credit with similar terms was in effect through December 26, 2024. Each Fund is permitted to borrow, subject to its investment limitations, up to a maximum of the lower of one-quarter of such Fund's net assets or \$500 million, as long as total borrowings under the line of credit do not exceed \$700 million in the aggregate. Each Fund is individually, and not jointly, liable for its particular advances under the line of credit. Borrowings under the line of credit are charged interest at rates agreed upon by the parties at the time of borrowing. There is no commitment fee on the unused portion of the line of credit. The line of credit agreement expires on December 25, 2025.

For the year ended October 31, 2025, borrowings by the following Funds under the line of credit were as follows (amounts in thousands, except percentages and days):

	Weighted Average Interest Rate	Weighted Average Loan Balance	Number of Days Outstanding *	Interest Expense Incurred	Maximum Amount Borrowed During the Year	Outstanding Borrowings as of 10/31/2025
US Core Equity 1 ETF . . .	5.08%	\$1,197	2	\$—	\$1,257	\$—
US High Profitability ETF	5.08%	9,396	3	4	13,971	—
US Large Cap Value ETF	5.08%	1,788	6	2	2,506	—
US Small Cap Value ETF	5.08%	247	1	—	247	—

* Number of Days Outstanding represents the total of single or consecutive days during the year ended October 31, 2025, that each Fund's available line of credit was used.

Pursuant to an exemptive order issued by the SEC (the "Order"), the Funds may participate in an interfund lending program among certain portfolios managed by the Advisor (funds that operate as feeder funds do not participate in the program). The program allows the participating funds to borrow money from and loan money to each other for temporary or emergency purposes, subject to the conditions in the Order. A loan can only be made through the program if the interfund loan rate on that day is more favorable to both the borrowing and lending funds as compared to rates available through short-term bank loans or investments in overnight repurchase agreements

and money market funds, respectively, as detailed in the Order. Further, a fund may participate in the program only if and to the extent that such participation is consistent with its investment objectives and limitations. Interfund loans have a maximum duration of seven days and may be called on one business day's notice.

The Funds did not use the interfund lending program during the year ended October 31, 2025.

L. Segment Reporting

In this reporting period, the Funds adopted FASB Accounting Standards Update 2023-07, Segment Reporting (Topic 280) – Improvements to Reportable Segment Disclosures (“ASU 2023-07”). The adoption of the new standard only impacted financial statement disclosures and did not affect each Fund’s financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that (i) engages in business activities from which it may recognize revenues and incur expenses, (ii) has operating results that are regularly reviewed by the public entity’s chief operating decision maker (“CODM”) to make decisions about resources to be allocated to the segment and assess its performance, and (iii) has discrete financial information available. The Trust’s Co-Chief Executive Officers and the Chief Financial Officer act as the Funds’ CODM. Each Fund represents a single operating segment, as the CODM monitors the operating results of the Fund as a whole. Each Fund’s long-term strategic asset allocation is executed by its portfolio management team and guided by each Fund’s investment objective and principal investment strategies, as described in each Fund’s respective prospectus. The financial information provided to and reviewed by the CODM is consistent with that presented in each Fund’s Schedule of Investments, Statement of Operations, Statement of Changes in Net Assets, and Financial Highlights.

M. New Accounting Pronouncement

In December 2023, the FASB issued Accounting Standards Update 2023-09, Income Taxes (Topic 740) – Improvements to Income Tax Disclosures (“ASU 2023-09”). Effective for annual periods beginning after December 15, 2024, the amendments require greater disaggregation of disclosures related to income taxes paid. The ASU 2023-09 allows for early adoption and requires that amendments be applied on a prospective basis. Management is currently evaluating the impact of the ASU 2023-09 but does not expect the guidance to materially impact the financial statements.

N. Other

The Funds are subject to claims and suits that arise from time to time in the ordinary course of business (for example, claw back litigation against former shareholders of fund companies that filed for bankruptcy). Although management currently believes that resolving claims, if any, against the Funds, individually or in aggregate, will not have a material adverse impact on the Funds’ financial position, results of operations, or cash flows, these matters are subject to inherent uncertainties and management’s view of these matters may change in the future.

Active trading markets for a Fund’s Shares may not be developed or maintained by market makers or Authorized Participants. Authorized Participants are not obligated to make a market in a Fund’s Shares or to submit purchase or redemption orders for Creation Units, which may widen bid-ask spreads. Trading in Shares on an exchange may be halted in certain circumstances. There can be no assurance that the requirements of the listing exchange necessary to maintain the listing of a Fund will continue to be met.

O. Subsequent Events

Management has evaluated the impact of all subsequent events on the Funds through the date on which the financial statements were issued and has determined that there are no subsequent events requiring recognition or disclosure in the financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Dimensional ETF Trust and Shareholders of each of the eight funds listed in the table below

Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of each of the funds indicated in the table below (eight of the funds constituting Dimensional ETF Trust, hereafter collectively referred to as the “Funds”) as of October 31, 2025, the related statements of operations and of changes in net assets for each of the periods indicated in the table below, including the related notes, and the financial highlights for each of the periods indicated in the table below (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of October 31, 2025, the results of each of their operations, the changes in each of their net assets, and each of the financial highlights for each of the periods indicated in the table below, in conformity with accounting principles generally accepted in the United States of America.

Fund	Statement of operations	Statement of changes in net assets	Financial highlights
Dimensional US Core Equity Market ETF Dimensional US High Profitability ETF Dimensional US Real Estate ETF Dimensional US Small Cap Value ETF Dimensional US Large Cap Value ETF Dimensional US Core Equity 1 ETF	For the year ended October 31, 2025	For the years ended October 31, 2025 and 2024	For each of the periods indicated therein
Dimensional US Large Cap Vector ETF	For the year ended October 31, 2025	For the year ended October 31, 2025 and the period November 1, 2023 (commencement of operations) through October 31, 2024	
Dimensional US Vector Equity ETF	For the year ended October 31, 2025	For the year ended October 31, 2025 and the period September 10, 2024 (commencement of operations) through October 31, 2024	

Basis for Opinions

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of October 31, 2025 by correspondence with the custodian, brokers and transfer agent of the investee fund; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

Tax Notice to Shareholders (Unaudited)

The following information is solely for informational purposes. Each Fund is designating the U.S. federal income tax character of the following items with respect to distributions paid or expected to be paid to shareholders related to the fiscal year ended October 31, 2025. All designations are based on financial information available as of the date of this annual report and, accordingly are subject to change. For each classification below and including “Section 163(j) interest dividends” as defined in Treasury Regulation §1.163(j)-1(b)(35) and “Section 199A dividends” as defined in Treasury Regulation §1.199A-3(d), it is the intent of the Fund to designate the maximum amount permitted under the Internal Revenue Code and the regulations thereunder.

For U.S. federal income tax purposes, shareholders generally must report distributions received from a Fund on a calendar-year basis, which therefore may include distributions with respect to portions of two fiscal years of the Fund. Annual statements needed by shareholders concerning the tax status of distributions received for the calendar year 2025 (e.g., IRS Form 1099-DIV) will be provided in early 2026. Shareholders should refer to these statements in preparing their calendar year 2025 tax returns. Please consult your tax advisor for the proper treatment of this information. Unless otherwise noted, the amounts in the table are expressed as a percentage of the distributions paid with respect to the fiscal year ended October 31, 2025.

Dimensional ETF Trust	Net Investment Income Distribution	Short-term Capital Gain Distribution	Long-Term Capital Gain Distribution	Return of Capital	Tax-Exempt Interest	Total Distributions	Qualifying For Corporate Dividends Received Deduction(1)	Qualifying Dividend Income(2)	U.S. Government Interest(3)	Foreign Tax Credit(4)	Foreign Source Income(5)	Qualifying Interest Income(6)	Qualifying Short-Term Capital Gain(7)

The amounts in the table expressed as a percentage of distributions for the fiscal year 2025, as specifically noted in the footnotes, are based on these estimates and subject to change.

- (1) Qualified Dividends represents the amount that qualifies for the corporate dividends-received deduction under Section 243 of the Internal Revenue Code and is reflected as a percentage of estimated ordinary income distributions (the total of short-term capital gain and net investment income distributions) for the fiscal year 2025.
- (2) Qualified Dividend Income represents the amount that qualifies for the reduced capital gain tax rate under Section 1(h)(11) of the Internal Revenue Code and is reflected as a percentage of estimated ordinary income distributions (the total of short-term capital gain and net investment income distributions) for the fiscal year 2025.
- (3) U.S. Government Interest represents the amount of interest that was derived from direct U.S. Government obligations and distributed during the fiscal year. This amount is reflected as a percentage of total estimated ordinary income distributions (the total of short-term capital gain and net investment income distributions) for the fiscal year 2025. Generally, interest from direct U.S. Government obligations is exempt from state income tax. Please consult your tax advisor for the availability of a state tax exemption based on your individual circumstances.
- (4) Foreign Tax Credit represents the amount of dividends that qualify for the foreign tax credit pass through under Section 853 of the Internal Revenue Code and is reflected as a percentage of "investment company taxable income" (as defined in Section 852(b)(2) of the Internal Revenue Code).

- (5) Foreign Source Income represents the amount of dividends derived from foreign sources and is reflected as a percentage of "investment company taxable income" (as defined in Section 852(b)(2) of the Internal Revenue Code).
- (6) Qualified Net Interest Income represents the amount of interest income available as interest-related dividends generally exempt from withholding taxes for non-U.S. shareholders under Section 871(k)(1) of the Internal Revenue Code. The information is reflected as a percentage estimated ordinary income distributions (the total of short-term capital gain and net investment income distributions) for the fiscal year 2025.
- (7) Qualified Short-Term Capital Gain represents the amount available as short-term capital gain dividends generally exempt from withholding taxes for non-U.S. shareholders under Section 871(k)(2) of the Internal Revenue Code. The information is reflected as a percentage of estimated ordinary income distributions (the total of short-term capital gain and net investment income distributions) for the fiscal year 2025.
