Notes to Financial Statements

Vanguard LifeStrategy Income Fund is registered under the Investment Company Act of 1940 as an open-end investment company, or mutual fund. The fund follows a balanced investment strategy by investing in selected Vanguard funds to achieve its targeted allocation of assets to U.S. and international stocks, and U.S. and international bonds. The fund invests a substantial amount of its assets in Vanguard Total Bond Market II Index Fund. Financial statements and other information about each underlying fund are available at www.vanguard.com.

A. The following significant accounting policies conform to generally accepted accounting principles for U.S. investment companies. The fund consistently follows such policies in preparing its financial statements.

1. **Security Valuation:** Investments are valued at the net asset value of each underlying Vanguard fund determined as of the close of the New York Stock Exchange (generally 4 p.m., Eastern time) on the valuation date.

2. **Futures Contracts:** The fund uses stock and bond futures contracts to a limited extent, with the objectives of maintaining full exposure to the market and maintaining its target asset allocation. The primary risks associated with the use of futures contracts are imperfect correlation between changes in market values of investments held by the fund and the prices of futures contracts, and the possibility of an illiquid market. Counterparty risk involving futures is mitigated because a regulated clearinghouse is the counterparty instead of the clearing broker. To further mitigate counterparty risk, the fund trades futures contracts on an exchange, monitors the financial strength of its clearing brokers and clearinghouse, and has entered into clearing agreements with its clearing brokers. The clearinghouse imposes initial margin requirements to secure the fund's performance and requires daily settlement of variation margin representing changes in the market value of each contract. Any securities pledged as initial margin for open contracts are noted in the Schedule of Investments.

Futures contracts are valued at their quoted daily settlement prices. The notional amounts of the contracts are not recorded in the Statement of Assets and Liabilities. Fluctuations in the value of the contracts are recorded in the Statement of Assets and Liabilities as an asset (liability) and in the Statement of Operations as unrealized appreciation (depreciation) until the contracts are closed, when they are recorded as realized gains (losses) on futures contracts.

During the year ended October 31, 2025, the fund's average investments in long and short futures contracts represented 1% and 0% of net assets, respectively, based on the average of the notional amounts at each quarter-end during the period.

3. **Federal Income Taxes:** The fund intends to continue to qualify as a regulated investment company and distribute virtually all of its taxable income. The fund's tax returns are open to examination by the relevant tax authorities until expiration of the applicable statute of limitations, which is generally three years after the filing of the tax return. Management has analyzed the fund's tax positions taken for all open federal and state income tax years, and has concluded that no provision for income tax is required in the fund's financial statements.

4. **Distributions:** Distributions to shareholders are recorded on the ex-dividend date. Distributions are determined on a tax basis at the fiscal year-end and may differ from net investment income and realized capital gains for financial reporting purposes.

5. **Credit Facilities and Interfund Lending Program:** The fund and certain other funds managed by The Vanguard Group ("Vanguard") participate in a \$4.3 billion committed credit facility provided by a syndicate of lenders pursuant to a credit agreement and an uncommitted credit facility provided by Vanguard. Both facilities may be renewed annually. Each fund is individually liable for its borrowings, if any, under the credit facilities. Borrowings may be utilized for temporary or emergency purposes and are subject to the fund's regulatory and contractual borrowing restrictions. With respect to the committed credit facility, the participating funds are charged administrative fees and an annual commitment fee of 0.10% of the undrawn committed amount of the facility, which are allocated to the funds based on a method approved by the fund's board of trustees and borne by the funds in which the fund invests (see Note B). Any borrowings under either facility bear interest at an agreed-upon spread plus the higher of the federal funds effective rate, the overnight bank funding rate, or the Daily Simple Secured Overnight Financing Rate inclusive of an additional agreed-upon spread. However, borrowings under the uncommitted credit facility may bear interest based upon an alternate rate agreed to by the fund and Vanguard.

In accordance with an exemptive order (the "Order") from the SEC, the fund may participate in a joint lending and borrowing program that allows registered open-end Vanguard funds to borrow money from and lend money to each other for temporary or emergency purposes (the "Interfund Lending Program"), subject to compliance with the terms and conditions of the Order, and to the extent permitted by the fund's investment objective and investment policies. Interfund loans and borrowings normally extend overnight but can have a maximum duration of seven days. Loans may be called on one business day's notice. The interest rate to be charged is governed by the conditions of the Order and internal procedures adopted by the board of trustees. The board of trustees is responsible for overseeing the Interfund Lending Program.

For the year ended October 31, 2025, the fund did not utilize the credit facilities or the Interfund Lending Program.

6. **Other:** Income and capital gain distributions received are recorded on the ex-dividend date. Interest income, if any, includes interest earned on cash and cash collateral. Security transactions are accounted for on the date securities are bought or sold. Costs used to determine realized gains (losses) on the sale of investment securities are those of the specific securities sold.

B. In accordance with the terms of a Funds' Service Agreement (the "FSA") between Vanguard and the fund, Vanguard furnishes to the fund investment advisory, corporate management, administrative, marketing, and distribution services at Vanguard's cost of operations (as defined by the FSA). These costs of operations are allocated to the fund based on methods and guidelines approved by the board of trustees. The FSA provides that expenses otherwise allocable to Vanguard funds-of-funds may be reduced or eliminated to the extent of savings realized by the underlying Vanguard funds by virtue of being part of a fund-of-funds. Accordingly, all expenses for services provided by Vanguard to the fund and all other expenses incurred by the fund during the year ended October 31, 2025, were borne by the underlying Vanguard funds in which the fund invests. The fund's trustees and officers are also trustees and officers, respectively, of the underlying Vanguard funds, as well as directors and employees, respectively, of Vanguard.

C. Various inputs may be used to determine the value of the fund's investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes. The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

Level 1—Quoted prices in active markets for identical securities.

Level 2—Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3—Significant unobservable inputs (including the fund's own assumptions used to determine the fair value of investments). Any investments and derivatives valued with significant unobservable inputs are noted on the Schedule of Investments.

At October 31, 2025, 100% of the market value of the fund's investments and derivatives was determined based on Level 1 inputs.

D. Permanent differences between book-basis and tax-basis components of net assets are reclassified among capital accounts in the financial statements to reflect their tax character. These reclassifications have no effect on net assets or net asset value per share. Examples of permanent differences include, but are not limited to, the accounting for passive foreign investment companies, in-kind redemptions, swap agreements, and distributions in connection with fund share redemptions.

	Amount (\$000)
Permanent differences were reclassified between the following accounts:	
Paid-in Capital	63
Total Distributable Earnings (Loss)	(63)

Temporary differences between book-basis and tax-basis components of total distributable earnings (loss) arise when certain items of income, gain, or loss are recognized in different periods for financial statement and tax purposes; these differences will reverse at some time in the future. Examples of temporary differences include, but are not limited to, capital loss carryforwards, the deferral of losses from wash sales, the recognition of unrealized gains or losses from certain derivative contracts, and the recognition of unrealized gains from passive foreign investment companies. As of period end, the tax-basis components of total distributable earnings (loss) are detailed in the table as follows:

	Amount (\$000)
Undistributed Ordinary Income	16,925
Undistributed Long-Term Gains	17,780
Net Unrealized Gains (Losses)	352,194
Capital Loss Carryforwards	—
Qualified Late-Year Losses	—
Other Temporary Differences	—
Total	386,899

The tax character of distributions paid was as follows:

	Year Ended October 31,	
	2025 Amount (\$000)	2024 Amount (\$000)
Ordinary Income*	146,126	145,956
Long-Term Capital Gains	72,539	—
Total	218,665	145,956

* Includes short-term capital gains, if any.

As of October 31, 2025, gross unrealized appreciation and depreciation for investments and derivatives based on cost for U.S. federal income tax purposes were as follows:

	Amount (\$000)
Tax Cost	3,719,654
Gross Unrealized Appreciation	566,523
Gross Unrealized Depreciation	(214,329)
Net Unrealized Appreciation (Depreciation)	352,194

E. Capital shares issued and redeemed were:

	Year Ended October 31,	
	2025 Shares (000)	2024 Shares (000)
Issued	40,047	28,021
Issued in Lieu of Cash Distributions	13,059	8,626
Redeemed	(54,246)	(65,707)
Net Increase (Decrease) in Shares Outstanding	(1,140)	(29,060)

F. Transactions during the period in affiliated underlying Vanguard funds were as follows:

	Current Period Transactions							Oct. 31, 2025 Market Value (\$000)
	Oct. 31, 2024 Market Value (\$000)	Purchases at Cost (\$000)	Proceeds from Securities Sold (\$000)	Realized Net Gain (Loss) (\$000)	Change in Unrealized App. (Dep.) (\$000)	Income (\$000)	Capital Gain Distributions Received (\$000)	
Vanguard Market Liquidity Fund	24,851	NA ¹	NA ¹	1	3	1,089	—	26,865
Vanguard Total Bond Market II Index Fund	2,212,005	152,916	179,369	(12,043)	54,781	85,131	—	2,228,290
Vanguard Total International Bond II Index Fund	964,698	75,068	93,800	(6,251)	3,085	41,762	—	942,800
Vanguard Total International Stock Index Fund	312,067	33,726	48,349	5,153	58,682	9,929	—	361,279
Vanguard Total Stock Market Index Fund	456,604	40,648	75,728	32,236	58,854	5,283	—	512,614
Total	3,970,225	302,358	397,246	19,096	175,405	143,194	—	4,071,848

¹ Not applicable—purchases and sales are for temporary cash investment purposes.

G. Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, political or regulatory conditions, or other events, can adversely affect local and global markets and normal market operations. Any such disruptions could have an adverse impact on the value of the fund's investments and fund performance.

To the extent the fund's investment portfolio reflects concentration in a particular market, industry, sector, country or asset class, the fund may be adversely affected by the performance of these concentrations and may be subject to increased price volatility and other risks.

The use of derivatives may expose the fund to various risks. Derivatives can be highly volatile, and any initial investment is generally small relative to the notional amount so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard securities. Leveraged derivatives positions can, therefore, increase volatility. Additional information regarding the fund's use of derivative(s) and the specific risks associated is described under significant accounting policies.

H. Operating segments are components of an entity that engage in business activities, have discrete financial information available, and have their operating results regularly reviewed by a chief operating decision maker ("CODM"). The fund is considered a single segment. Vanguard's chief executive officer, chief investment officer, and chief financial officer, who are also officers of the fund, as well as the fund's chief financial officer collectively act as the CODM. Vanguard has established various management committees to assist the CODM with overseeing aspects of the fund's daily operations. Through these committees, the CODM manages the fund's operations to achieve a single investment objective, as detailed in its prospectus, through the execution of the fund's investment strategies. When assessing segment performance and making decisions about segment resources, the CODM relies on the fund's portfolio composition, total returns, expense ratios and changes in net assets which are consistent with the information contained in the fund's financial statements. Segment assets, liabilities, income, and expenses are also detailed in the accompanying financial statements.

I. Management has determined that no subsequent events or transactions occurred through the date the financial statements were issued that would require recognition or disclosure in these financial statements.

Financial Statements

Schedule of Investments

As of October 31, 2025

The fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. The fund's Form N-PORT reports are available on the SEC's website at www.sec.gov.

3 Total returns do not include account service fees that may have applied in the periods shown. Fund prospectuses provide information about any applicable account service fees.

Notes to Financial Statements

Vanguard LifeStrategy Conservative Growth Fund is registered under the Investment Company Act of 1940 as an open-end investment company, or mutual fund. The fund follows a balanced investment strategy by investing in selected Vanguard funds to achieve its targeted allocation of assets to U.S. and international stocks, and U.S. and international bonds. Financial statements and other information about each underlying fund are available at www.vanguard.com.

A. The following significant accounting policies conform to generally accepted accounting principles for U.S. investment companies. The fund consistently follows such policies in preparing its financial statements.

1. **Security Valuation:** Investments are valued at the net asset value of each underlying Vanguard fund determined as of the close of the New York Stock Exchange (generally 4 p.m., Eastern time) on the valuation date.

2. **Futures Contracts:** The fund uses stock and bond futures contracts to a limited extent, with the objectives of maintaining full exposure to the market and maintaining its target asset allocation. The primary risks associated with the use of futures contracts are imperfect correlation between changes in market values of investments held by the fund and the prices of futures contracts, and the possibility of an illiquid market. Counterparty risk involving futures is mitigated because a regulated clearinghouse is the counterparty instead of the clearing broker. To further mitigate counterparty risk, the fund trades futures contracts on an exchange, monitors the financial strength of its clearing brokers and clearinghouse, and has entered into clearing agreements with its clearing brokers. The clearinghouse imposes initial margin requirements to secure the fund's performance and requires daily settlement of variation margin representing changes in the market value of each contract. Any securities pledged as initial margin for open contracts are noted in the Schedule of Investments.

Futures contracts are valued at their quoted daily settlement prices. The notional amounts of the contracts are not recorded in the Statement of Assets and Liabilities. Fluctuations in the value of the contracts are recorded in the Statement of Assets and Liabilities as an asset (liability) and in the Statement of Operations as unrealized appreciation (depreciation) until the contracts are closed, when they are recorded as realized gains (losses) on futures contracts.

During the year ended October 31, 2025, the fund's average investments in long and short futures contracts represented 1% and 0% of net assets, respectively, based on the average of the notional amounts at each quarter-end during the period.

3. **Federal Income Taxes:** The fund intends to continue to qualify as a regulated investment company and distribute virtually all of its taxable income. The fund's tax returns are open to examination by the relevant tax authorities until expiration of the applicable statute of limitations, which is generally three years after the filing of the tax return. Management has analyzed the fund's tax positions taken for all open federal and state income tax years, and has concluded that no provision for income tax is required in the fund's financial statements.

4. **Distributions:** Distributions to shareholders are recorded on the ex-dividend date. Distributions are determined on a tax basis at the fiscal year-end and may differ from net investment income and realized capital gains for financial reporting purposes.

5. **Credit Facilities and Interfund Lending Program:** The fund and certain other funds managed by The Vanguard Group ("Vanguard") participate in a \$4.3 billion committed credit facility provided by a syndicate of lenders pursuant to a credit agreement and an uncommitted credit facility provided by Vanguard. Both facilities may be renewed annually. Each fund is individually liable for its borrowings, if any, under the credit facilities. Borrowings may be utilized for temporary or emergency purposes and are subject to the fund's regulatory and contractual borrowing restrictions. With respect to the committed credit facility, the participating funds are charged administrative fees and an annual commitment fee of 0.10% of the undrawn committed amount of the facility, which are allocated to the funds based on a method approved by the fund's board of trustees and borne by the funds in which the fund invests (see Note B). Any borrowings under either facility bear interest at an agreed-upon spread plus the higher of the federal funds effective rate, the overnight bank funding rate, or the Daily Simple Secured Overnight Financing Rate inclusive of an additional agreed-upon spread. However, borrowings under the uncommitted credit facility may bear interest based upon an alternate rate agreed to by the fund and Vanguard.

In accordance with an exemptive order (the "Order") from the SEC, the fund may participate in a joint lending and borrowing program that allows registered open-end Vanguard funds to borrow money from and lend money to each other for temporary or emergency purposes (the "Interfund Lending Program"), subject to compliance with the terms and conditions of the Order, and to the extent permitted by the fund's investment objective and investment policies. Interfund loans and borrowings normally extend overnight but can have a maximum duration of seven days. Loans may be called on one business day's notice. The interest rate to be charged is governed by the conditions of the Order and internal procedures adopted by the board of trustees. The board of trustees is responsible for overseeing the Interfund Lending Program.

For the year ended October 31, 2025, the fund did not utilize the credit facilities or the Interfund Lending Program.

6. **Other:** Income and capital gain distributions received are recorded on the ex-dividend date. Interest income, if any, includes interest earned on cash and cash collateral. Security transactions are accounted for on the date securities are bought or sold. Costs used to determine realized gains (losses) on the sale of investment securities are those of the specific securities sold.

B. In accordance with the terms of a Funds' Service Agreement (the "FSA") between Vanguard and the fund, Vanguard furnishes to the fund investment advisory, corporate management, administrative, marketing, and distribution services at Vanguard's cost of operations (as defined by the FSA). These costs of operations are allocated to the fund based on methods and guidelines approved by the board of trustees. The FSA provides that expenses otherwise allocable to Vanguard funds-of-funds may be reduced or eliminated to the extent of savings realized by the underlying Vanguard funds by virtue of being part of a fund-of-funds. Accordingly, all expenses for services provided by Vanguard to the fund and all other expenses incurred by the fund during the year ended October 31, 2025, were borne by the underlying Vanguard funds in which the fund invests. The fund's trustees and officers are also trustees and officers, respectively, of the underlying Vanguard funds, as well as directors and employees, respectively, of Vanguard.

C. Various inputs may be used to determine the value of the fund's investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes. The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

Level 1—Quoted prices in active markets for identical securities.

Level 2—Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3—Significant unobservable inputs (including the fund's own assumptions used to determine the fair value of investments). Any investments and derivatives valued with significant unobservable inputs are noted on the Schedule of Investments.

At October 31, 2025, 100% of the market value of the fund's investments and derivatives was determined based on Level 1 inputs.

D. Permanent differences between book-basis and tax-basis components of net assets are reclassified among capital accounts in the financial statements to reflect their tax character. These reclassifications have no effect on net assets or net asset value per share. Examples of permanent differences include, but are not limited to, the accounting for passive foreign investment companies, in-kind redemptions, swap agreements, and distributions in connection with fund share redemptions.

	Amount (\$000)
Permanent differences were reclassified between the following accounts:	
Paid-in Capital	9,337
Total Distributable Earnings (Loss)	(9,337)

Temporary differences between book-basis and tax-basis components of total distributable earnings (loss) arise when certain items of income, gain, or loss are recognized in different periods for financial statement and tax purposes; these differences will reverse at some time in the future. Examples of temporary differences include, but are not limited to, capital loss carryforwards, the deferral of losses from wash sales, the recognition of unrealized gains or losses from certain derivative contracts, and the recognition of unrealized gains from passive foreign investment companies. As of period end, the tax-basis components of total distributable earnings (loss) are detailed in the table as follows:

	Amount (\$000)
Undistributed Ordinary Income	48,298
Undistributed Long-Term Gains	220,747
Net Unrealized Gains (Losses)	2,813,153
Capital Loss Carryforwards	—
Qualified Late-Year Losses	—
Other Temporary Differences	—
Total	3,082,198

The tax character of distributions paid was as follows:

	Year Ended October 31,	
	2025 Amount (\$000)	2024 Amount (\$000)
Ordinary Income*	342,690	324,934
Long-Term Capital Gains	365,048	227,652
Total	707,738	552,586

* Includes short-term capital gains, if any.

As of October 31, 2025, gross unrealized appreciation and depreciation for investments and derivatives based on cost for U.S. federal income tax purposes were as follows:

	Amount (\$000)
Tax Cost	8,099,164
Gross Unrealized Appreciation	3,231,728
Gross Unrealized Depreciation	(418,575)
Net Unrealized Appreciation (Depreciation)	2,813,153

E. Capital shares issued and redeemed were:

	Year Ended October 31,	
	2025 Shares (000)	2024 Shares (000)
Issued	59,914	47,730
Issued in Lieu of Cash Distributions	31,496	24,647
Redeemed	(86,674)	(91,331)
Net Increase (Decrease) in Shares Outstanding	4,736	(18,954)

F. Transactions during the period in affiliated underlying Vanguard funds were as follows:

	Current Period Transactions							Oct. 31, 2025 Market Value (\$000)
	Oct. 31, 2024 Market Value (\$000)	Purchases at Cost (\$000)	Proceeds from Securities Sold (\$000)	Realized Net Gain (Loss) (\$000)	Change in Unrealized App. (Dep.) (\$000)	Income (\$000)	Capital Gain Distributions Received (\$000)	
Vanguard Market Liquidity Fund	63,821	NA ¹	NA ¹	2	7	2,979	—	76,060
Vanguard Total Bond Market II Index Fund	4,221,649	488,167	337,268	(25,310)	111,947	165,594	—	4,459,185
Vanguard Total International Bond II Index Fund	1,864,018	124,033	111,658	(771)	(5,744)	82,575	—	1,869,878
Vanguard Total International Stock Index Fund	1,649,922	89,536	235,235	37,949	290,516	51,340	—	1,832,688
Vanguard Total Stock Market Index Fund	2,499,227	169,563	475,047	250,453	230,310	28,575	—	2,674,506
Total	10,298,637	871,299	1,159,208	262,323	627,036	331,063	—	10,912,317

¹ Not applicable—purchases and sales are for temporary cash investment purposes.

G. Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, political or regulatory conditions, or other events, can adversely affect local and global markets and normal market operations. Any such disruptions could have an adverse impact on the value of the fund's investments and fund performance.

To the extent the fund's investment portfolio reflects concentration in a particular market, industry, sector, country or asset class, the fund may be adversely affected by the performance of these concentrations and may be subject to increased price volatility and other risks.

The use of derivatives may expose the fund to various risks. Derivatives can be highly volatile, and any initial investment is generally small relative to the notional amount so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard securities. Leveraged derivatives positions can, therefore, increase volatility. Additional information regarding the fund's use of derivative(s) and the specific risks associated is described under significant accounting policies.

H. Operating segments are components of an entity that engage in business activities, have discrete financial information available, and have their operating results regularly reviewed by a chief operating decision maker ("CODM"). The fund is considered a single segment. Vanguard's chief executive officer, chief investment officer, and chief financial officer, who are also officers of the fund, as well as the fund's chief financial officer collectively act as the CODM. Vanguard has established various management committees to assist the CODM with overseeing aspects of the fund's daily operations. Through these committees, the CODM manages the fund's operations to achieve a single investment objective, as detailed in its prospectus, through the execution of the fund's investment strategies. When assessing segment performance and making decisions about segment resources, the CODM relies on the fund's portfolio composition, total returns, expense ratios and changes in net assets which are consistent with the information contained in the fund's financial statements. Segment assets, liabilities, income, and expenses are also detailed in the accompanying financial statements.

I. Management has determined that no subsequent events or transactions occurred through the date the financial statements were issued that would require recognition or disclosure in these financial statements.

Financial Statements

Schedule of Investments

As of October 31, 2025

The fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. The fund's Form N-PORT reports are available on the SEC's website at www.sec.gov.

Notes to Financial Statements

Vanguard LifeStrategy Moderate Growth Fund is registered under the Investment Company Act of 1940 as an open-end investment company, or mutual fund. The fund follows a balanced investment strategy by investing in selected Vanguard funds to achieve its targeted allocation of assets to U.S. and international stocks, and U.S. and international bonds. Financial statements and other information about each underlying fund are available at www.vanguard.com.

A. The following significant accounting policies conform to generally accepted accounting principles for U.S. investment companies. The fund consistently follows such policies in preparing its financial statements.

1. **Security Valuation:** Investments are valued at the net asset value of each underlying Vanguard fund determined as of the close of the New York Stock Exchange (generally 4 p.m., Eastern time) on the valuation date.

2. **Futures Contracts:** The fund uses stock and bond futures contracts to a limited extent, with the objectives of maintaining full exposure to the market and maintaining its target asset allocation. The primary risks associated with the use of futures contracts are imperfect correlation between changes in market values of investments held by the fund and the prices of futures contracts, and the possibility of an illiquid market. Counterparty risk involving futures is mitigated because a regulated clearinghouse is the counterparty instead of the clearing broker. To further mitigate counterparty risk, the fund trades futures contracts on an exchange, monitors the financial strength of its clearing brokers and clearinghouse, and has entered into clearing agreements with its clearing brokers. The clearinghouse imposes initial margin requirements to secure the fund's performance and requires daily settlement of variation margin representing changes in the market value of each contract. Any securities pledged as initial margin for open contracts are noted in the Schedule of Investments.

Futures contracts are valued at their quoted daily settlement prices. The notional amounts of the contracts are not recorded in the Statement of Assets and Liabilities. Fluctuations in the value of the contracts are recorded in the Statement of Assets and Liabilities as an asset (liability) and in the Statement of Operations as unrealized appreciation (depreciation) until the contracts are closed, when they are recorded as realized gains (losses) on futures contracts.

During the year ended October 31, 2025, the fund's average investments in long and short futures contracts represented 1% and 0% of net assets, respectively, based on the average of the notional amounts at each quarter-end during the period.

3. **Federal Income Taxes:** The fund intends to continue to qualify as a regulated investment company and distribute virtually all of its taxable income. The fund's tax returns are open to examination by the relevant tax authorities until expiration of the applicable statute of limitations, which is generally three years after the filing of the tax return. Management has analyzed the fund's tax positions taken for all open federal and state income tax years, and has concluded that no provision for income tax is required in the fund's financial statements.

4. **Distributions:** Distributions to shareholders are recorded on the ex-dividend date. Distributions are determined on a tax basis at the fiscal year-end and may differ from net investment income and realized capital gains for financial reporting purposes.

5. **Credit Facilities and Interfund Lending Program:** The fund and certain other funds managed by The Vanguard Group ("Vanguard") participate in a \$4.3 billion committed credit facility provided by a syndicate of lenders pursuant to a credit agreement and an uncommitted credit facility provided by Vanguard. Both facilities may be renewed annually. Each fund is individually liable for its borrowings, if any, under the credit facilities. Borrowings may be utilized for temporary or emergency purposes and are subject to the fund's regulatory and contractual borrowing restrictions. With respect to the committed credit facility, the participating funds are charged administrative fees and an annual commitment fee of 0.10% of the undrawn committed amount of the facility, which are allocated to the funds based on a method approved by the fund's board of trustees and borne by the funds in which the fund invests (see Note B). Any borrowings under either facility bear interest at an agreed-upon spread plus the higher of the federal funds effective rate, the overnight bank funding rate, or the Daily Simple Secured Overnight Financing Rate inclusive of an additional agreed-upon spread. However, borrowings under the uncommitted credit facility may bear interest based upon an alternate rate agreed to by the fund and Vanguard.

In accordance with an exemptive order (the "Order") from the SEC, the fund may participate in a joint lending and borrowing program that allows registered open-end Vanguard funds to borrow money from and lend money to each other for temporary or emergency purposes (the "Interfund Lending Program"), subject to compliance with the terms and conditions of the Order, and to the extent permitted by the fund's investment objective and investment policies. Interfund loans and borrowings normally extend overnight but can have a maximum duration of seven days. Loans may be called on one business day's notice. The interest rate to be charged is governed by the conditions of the Order and internal procedures adopted by the board of trustees. The board of trustees is responsible for overseeing the Interfund Lending Program.

For the year ended October 31, 2025, the fund did not utilize the credit facilities or the Interfund Lending Program.

6. **Other:** Income and capital gain distributions received are recorded on the ex-dividend date. Interest income, if any, includes interest earned on cash and cash collateral. Security transactions are accounted for on the date securities are bought or sold. Costs used to determine realized gains (losses) on the sale of investment securities are those of the specific securities sold.

B. In accordance with the terms of a Funds' Service Agreement (the "FSA") between Vanguard and the fund, Vanguard furnishes to the fund investment advisory, corporate management, administrative, marketing, and distribution services at Vanguard's cost of operations (as defined by the FSA). These costs of operations are allocated to the fund based on methods and guidelines approved by the board of trustees. The FSA provides that expenses otherwise allocable to Vanguard funds-of-funds may be reduced or eliminated to the extent of savings realized by the underlying Vanguard funds by virtue of being part of a fund-of-funds. Accordingly, all expenses for services provided by Vanguard to the fund and all other expenses incurred by the fund during the year ended October 31, 2025, were borne by the underlying Vanguard funds in which the fund invests. The fund's trustees and officers are also trustees and officers, respectively, of the underlying Vanguard funds, as well as directors and employees, respectively, of Vanguard.

C. Various inputs may be used to determine the value of the fund's investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes. The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

Level 1—Quoted prices in active markets for identical securities.

Level 2—Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3—Significant unobservable inputs (including the fund's own assumptions used to determine the fair value of investments). Any investments and derivatives valued with significant unobservable inputs are noted on the Schedule of Investments.

At October 31, 2025, 100% of the market value of the fund's investments and derivatives was determined based on Level 1 inputs.

D. Permanent differences between book-basis and tax-basis components of net assets are reclassified among capital accounts in the financial statements to reflect their tax character. These reclassifications have no effect on net assets or net asset value per share. Examples of permanent differences include, but are not limited to, the accounting for passive foreign investment companies, in-kind redemptions, swap agreements, and distributions in connection with fund share redemptions.

	Amount (\$000)
Permanent differences were reclassified between the following accounts:	
Paid-in Capital	29,148
Total Distributable Earnings (Loss)	(29,148)

Temporary differences between book-basis and tax-basis components of total distributable earnings (loss) arise when certain items of income, gain, or loss are recognized in different periods for financial statement and tax purposes; these differences will reverse at some time in the future. Examples of temporary differences include, but are not limited to, capital loss carryforwards, the deferral of losses from wash sales, the recognition of unrealized gains or losses from certain derivative contracts, and the recognition of unrealized gains from passive foreign investment companies. As of period end, the tax-basis components of total distributable earnings (loss) are detailed in the table as follows:

	Amount (\$000)
Undistributed Ordinary Income	199,329
Undistributed Long-Term Gains	520,147
Net Unrealized Gains (Losses)	9,560,509
Capital Loss Carryforwards	—
Qualified Late-Year Losses	—
Other Temporary Differences	—
Total	10,279,985

The tax character of distributions paid was as follows:

	Year Ended October 31,	
	2025 Amount (\$000)	2024 Amount (\$000)
Ordinary Income*	607,898	574,307
Long-Term Capital Gains	844,484	267,642
Total	1,452,382	841,949

* Includes short-term capital gains, if any.

As of October 31, 2025, gross unrealized appreciation and depreciation for investments and derivatives based on cost for U.S. federal income tax purposes were as follows:

	Amount (\$000)
Tax Cost	13,891,499
Gross Unrealized Appreciation	10,093,081
Gross Unrealized Depreciation	(532,572)
Net Unrealized Appreciation (Depreciation)	9,560,509

E. Capital shares issued and redeemed were:

	Year Ended October 31,

¹ Not applicable—purchases and sales are for temporary cash investment purposes.

G. Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, political or regulatory conditions, or other events, can adversely affect local and global markets and normal market operations. Any such disruptions could have an adverse impact on the value of the fund's investments and fund performance.

To the extent the fund's investment portfolio reflects concentration in a particular market, industry, sector, country or asset class, the fund may be adversely affected by the performance of these concentrations and may be subject to increased price volatility and other risks.

The use of derivatives may expose the fund to various risks. Derivatives can be highly volatile, and any initial investment is generally small relative to the notional amount so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard securities. Leveraged derivatives positions can, therefore, increase volatility. Additional information regarding the fund's use of derivative(s) and the specific risks associated is described under significant accounting policies.

H. Operating segments are components of an entity that engage in business activities, have discrete financial information available, and have their operating results regularly reviewed by a chief operating decision maker ("CODM"). The fund is considered a single segment. Vanguard's chief executive officer, chief investment officer, and chief financial officer, who are also officers of the fund, as well as the fund's chief financial officer collectively act as the CODM. Vanguard has established various management committees to assist the CODM with overseeing aspects of the fund's daily operations. Through these committees, the CODM manages the fund's operations to achieve a single investment objective, as detailed in its prospectus, through the execution of the fund's investment strategies. When assessing segment performance and making decisions about segment resources, the CODM relies on the fund's portfolio composition, total returns, expense ratios and changes in net assets which are consistent with the information contained in the fund's financial statements. Segment assets, liabilities, income, and expenses are also detailed in the accompanying financial statements.

I. Management has determined that no subsequent events or transactions occurred through the date the financial statements were issued that would require recognition or disclosure in these financial statements.

Financial Statements

Schedule of Investments

As of October 31, 2025

The fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. The fund's Form N-PORT reports are available on the SEC's website at www.sec.gov.

Notes to Financial Statements

Vanguard LifeStrategy Growth Fund is registered under the Investment Company Act of 1940 as an open-end investment company, or mutual fund. The fund follows a balanced investment strategy by investing in selected Vanguard funds to achieve its targeted allocation of assets to U.S. and international stocks, and U.S. and international bonds. Financial statements and other information about each underlying fund are available at www.vanguard.com.

A. The following significant accounting policies conform to generally accepted accounting principles for U.S. investment companies. The fund consistently follows such policies in preparing its financial statements.

1. **Security Valuation:** Investments are valued at the net asset value of each underlying Vanguard fund determined as of the close of the New York Stock Exchange (generally 4 p.m., Eastern time) on the valuation date.

2. **Futures Contracts:** The fund uses stock and bond futures contracts to a limited extent, with the objectives of maintaining full exposure to the market and maintaining its target asset allocation. The primary risks associated with the use of futures contracts are imperfect correlation between changes in market values of investments held by the fund and the prices of futures contracts, and the possibility of an illiquid market. Counterparty risk involving futures is mitigated because a regulated clearinghouse is the counterparty instead of the clearing broker. To further mitigate counterparty risk, the fund trades futures contracts on an exchange, monitors the financial strength of its clearing brokers and clearinghouse, and has entered into clearing agreements with its clearing brokers. The clearinghouse imposes initial margin requirements to secure the fund's performance and requires daily settlement of variation margin representing changes in the market value of each contract. Any securities pledged as initial margin for open contracts are noted in the Schedule of Investments.

Futures contracts are valued at their quoted daily settlement prices. The notional amounts of the contracts are not recorded in the Statement of Assets and Liabilities. Fluctuations in the value of the contracts are recorded in the Statement of Assets and Liabilities as an asset (liability) and in the Statement of Operations as unrealized appreciation (depreciation) until the contracts are closed, when they are recorded as realized gains (losses) on futures contracts.

During the year ended October 31, 2025, the fund's average investments in long and short futures contracts represented 1% and 0% of net assets, respectively, based on the average of the notional amounts at each quarter-end during the period.

3. **Federal Income Taxes:** The fund intends to continue to qualify as a regulated investment company and distribute virtually all of its taxable income. The fund's tax returns are open to examination by the relevant tax authorities until expiration of the applicable statute of limitations, which is generally three years after the filing of the tax return. Management has analyzed the fund's tax positions taken for all open federal and state income tax years, and has concluded that no provision for income tax is required in the fund's financial statements.

4. **Distributions:** Distributions to shareholders are recorded on the ex-dividend date. Distributions are determined on a tax basis at the fiscal year-end and may differ from net investment income and realized capital gains for financial reporting purposes.

5. **Credit Facilities and Interfund Lending Program:** The fund and certain other funds managed by The Vanguard Group ("Vanguard") participate in a \$4.3 billion committed credit facility provided by a syndicate of lenders pursuant to a credit agreement and an uncommitted credit facility provided by Vanguard. Both facilities may be renewed annually. Each fund is individually liable for its borrowings, if any, under the credit facilities. Borrowings may be utilized for temporary or emergency purposes and are subject to the fund's regulatory and contractual borrowing restrictions. With respect to the committed credit facility, the participating funds are charged administrative fees and an annual commitment fee of 0.10% of the undrawn committed amount of the facility, which are allocated to the funds based on a method approved by the fund's board of trustees and borne by the funds in which the fund invests (see Note B). Any borrowings under either facility bear interest at an agreed-upon spread plus the higher of the federal funds effective rate, the overnight bank funding rate, or the Daily Simple Secured Overnight Financing Rate inclusive of an additional agreed-upon spread. However, borrowings under the uncommitted credit facility may bear interest based upon an alternate rate agreed to by the fund and Vanguard.

In accordance with an exemptive order (the "Order") from the SEC, the fund may participate in a joint lending and borrowing program that allows registered open-end Vanguard funds to borrow money from and lend money to each other for temporary or emergency purposes (the "Interfund Lending Program"), subject to compliance with the terms and conditions of the Order, and to the extent permitted by the fund's investment objective and investment policies. Interfund loans and borrowings normally extend overnight but can have a maximum duration of seven days. Loans may be called on one business day's notice. The interest rate to be charged is governed by the conditions of the Order and internal procedures adopted by the board of trustees. The board of trustees is responsible for overseeing the Interfund Lending Program.

For the year ended October 31, 2025, the fund did not utilize the credit facilities or the Interfund Lending Program.

6. **Other:** Income and capital gain distributions received are recorded on the ex-dividend date. Interest income, if any, includes interest earned on cash and cash collateral. Security transactions are accounted for on the date securities are bought or sold. Costs used to determine realized gains (losses) on the sale of investment securities are those of the specific securities sold.

B. In accordance with the terms of a Funds' Service Agreement (the "FSA") between Vanguard and the fund, Vanguard furnishes to the fund investment advisory, corporate management, administrative, marketing, and distribution services at Vanguard's cost of operations (as defined by the FSA). These costs of operations are allocated to the fund based on methods and guidelines approved by the board of trustees. The FSA provides that expenses otherwise allocable to Vanguard funds-of-funds may be reduced or eliminated to the extent of savings realized by the underlying Vanguard funds by virtue of being part of a fund-of-funds. Accordingly, all expenses for services provided by Vanguard to the fund and all other expenses incurred by the fund during the year ended October 31, 2025, were borne by the underlying Vanguard funds in which the fund invests. The fund's trustees and officers are also trustees and officers, respectively, of the underlying Vanguard funds, as well as directors and employees, respectively, of Vanguard.

C. Various inputs may be used to determine the value of the fund's investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes. The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

Level 1—Quoted prices in active markets for identical securities.

Level 2—Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3—Significant unobservable inputs (including the fund's own assumptions used to determine the fair value of investments). Any investments and derivatives valued with significant unobservable inputs are noted on the Schedule of Investments.

At October 31, 2025, 100% of the market value of the fund's investments and derivatives was determined based on Level 1 inputs.

D. Permanent differences between book-basis and tax-basis components of net assets are reclassified among capital accounts in the financial statements to reflect their tax character. These reclassifications have no effect on net assets or net asset value per share. Examples of permanent differences include, but are not limited to, the accounting for passive foreign investment companies, in-kind redemptions, swap agreements, and distributions in connection with fund share redemptions.

	Amount (\$000)
Permanent differences were reclassified between the following accounts:	
Paid-in Capital	29,528
Total Distributable Earnings (Loss)	(29,528)

Temporary differences between book-basis and tax-basis components of total distributable earnings (loss) arise when certain items of income, gain, or loss are recognized in different periods for financial statement and tax purposes; these differences will reverse at some time in the future. Examples of temporary differences include, but are not limited to, capital loss carryforwards, the deferral of losses from wash sales, the recognition of unrealized gains or losses from certain derivative contracts, and the recognition of unrealized gains from passive foreign investment companies. As of period end, the tax-basis components of total distributable earnings (loss) are detailed in the table as follows:

	Amount (\$000)
Undistributed Ordinary Income	174,350
Undistributed Long-Term Gains	387,043
Net Unrealized Gains (Losses)	13,501,064
Capital Loss Carryforwards	—
Qualified Late-Year Losses	—
Other Temporary Differences	—
Total	14,062,457

The tax character of distributions paid was as follows:

	Year Ended October 31,	
	2025 Amount (\$000)	2024 Amount (\$000)
Ordinary Income*	527,635	494,414
Long-Term Capital Gains	765,252	125,758
Total	1,292,887	620,172

* Includes short-term capital gains, if any.

As of October 31, 2025, gross unrealized appreciation and depreciation for investments and derivatives based on cost for U.S. federal income tax purposes were as follows:

	Amount (\$000)
Tax Cost	11,484,531
Gross Unrealized Appreciation	13,782,026
Gross Unrealized Depreciation	(280,962)
Net Unrealized Appreciation (Depreciation)	13,501,064

E. Capital shares issued and redeemed were:

	Year Ended October 31,	
	2025 Shares (000)	2024 Shares (000)
Issued	46,190	47,533
Issued in Lieu of Cash Distributions	27,011	13,758
Redeemed	(68,193)	(67,331)
Net Increase (Decrease) in Shares Outstanding	5,008	(6,040)

F. Transactions during the period in affiliated underlying Vanguard funds were as follows:

	Current Period Transactions							Oct. 31, 2025 Market Value (\$000)
	Oct. 31, 2024 Market Value (\$000)	Purchases at Cost (\$000)	Proceeds from Securities Sold (\$000)	Realized Net Gain (Loss) (\$000)	Change in Unrealized App. (Dep.) (\$000)	Income (\$000)	Capital Gain Distributions Received (\$000)	
Vanguard Market Liquidity Fund	160,974	NA ¹	NA ¹	9	8	5,806	—	147,119
Vanguard Total Bond Market II Index Fund	2,931,564	560,917	361,942	(41,931)	102,657	116,441	—	3,191,265
Vanguard Total International Bond II Index Fund	1,291,499	94,061	67,900	(194)	(3,937)	58,279	—	1,313,529
Vanguard Total International Stock Index Fund	6,933,055	278,481	465,140	27,454	1,412,789	220,722	—	8,186,639
Vanguard Total Stock Market Index Fund	10,687,073	307,096	896,223	489,485	1,559,612	126,132	—	12,147,043
Total	22,004,165	1,240,555	1,791,205	474,823	3,071,129	527,380	—	24,985,595

¹ Not applicable—purchases and sales are for temporary cash investment purposes.

G. Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, political or regulatory conditions, or other events, can adversely affect local and global markets and normal market operations. Any such disruptions could have an adverse impact on the value of the fund's investments and fund performance.

To the extent the fund's investment portfolio reflects concentration in a particular market, industry, sector, country or asset class, the fund may be adversely affected by the performance of these concentrations and may be subject to increased price volatility and other risks.

The use of derivatives may expose the fund to various risks. Derivatives can be highly volatile, and any initial investment is generally small relative to the notional amount so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard securities. Leveraged derivatives positions can, therefore, increase volatility. Additional information regarding the fund's use of derivative(s) and the specific risks associated is described under significant accounting policies.

H. Operating segments are components of an entity that engage in business activities, have discrete financial information available, and have their operating results regularly reviewed by a chief operating decision maker ("CODM"). The fund is considered a single segment. Vanguard's chief executive officer, chief investment officer, and chief financial officer, who are also officers of the fund, as well as the fund's chief financial officer collectively act as the CODM. Vanguard has established various management committees to assist the CODM with overseeing aspects of the fund's daily operations. Through these committees, the CODM manages the fund's operations to achieve a single investment objective, as detailed in its prospectus, through the execution of the fund's investment strategies. When assessing segment performance and making decisions about segment resources, the CODM relies on the fund's portfolio composition, total returns, expense ratios and changes in net assets which are consistent with the information contained in the fund's financial statements. Segment assets, liabilities, income, and expenses are also detailed in the accompanying financial statements.

I. Management has determined that no subsequent events or transactions occurred through the date the financial statements were issued that would require recognition or disclosure in these financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Vanguard STAR Funds and Shareholders of Vanguard LifeStrategy Income Fund, Vanguard LifeStrategy Conservative Growth Fund, Vanguard LifeStrategy Moderate Growth Fund and Vanguard LifeStrategy Growth Fund

Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of Vanguard LifeStrategy Income Fund, Vanguard LifeStrategy Conservative Growth Fund, Vanguard LifeStrategy Moderate Growth Fund and Vanguard LifeStrategy Growth Fund (four of the funds constituting Vanguard STAR Funds, hereafter collectively referred to as the "Funds") as of October 31, 2025, the related statements of operations for the year ended October 31, 2025, the statements of changes in net assets for each of the two years in the period ended October 31, 2025, including the related notes, and the financial highlights for each of the five years in the period ended October 31, 2025 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of October 31, 2025, the results of each of their operations for the year then ended, the changes in each of their net assets for each of the two years in the period ended October 31, 2025 and each of the financial highlights for each of the five years in the period ended October 31, 2025 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of October 31, 2025 by correspondence with the transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

/s/PricewaterhouseCoopers LLP
Philadelphia, Pennsylvania
December 19, 2025

We have served as the auditor of one or more investment companies in The Vanguard Group of Funds since 1975.

Tax information (unaudited)

The following percentages, or if subsequently determined to be different, the maximum percentages allowable by law, of ordinary income (dividend income plus short-term gains, if any) for the fiscal year qualified for the dividends-received deduction for corporate shareholders.

Fund	Percentage
LifeStrategy Income Fund	3.2%
LifeStrategy Conservative Growth Fund	7.3
LifeStrategy Moderate Growth Fund	13.0
LifeStrategy Growth Fund	20.9

The following amounts, or if subsequently determined to be different, the maximum amounts allowable by law, are hereby designated as qualified dividend income for purposes of the maximum rate under section 1(h)(11) for calendar year 2024. Shareholders will be notified in January 2026 via IRS Form 1099 of the amounts for use in preparing their 2025 income tax return.

Fund	(\$000)
LifeStrategy Income Fund	11,765
LifeStrategy Conservative Growth Fund	61,397
LifeStrategy Moderate Growth Fund	191,195
LifeStrategy Growth Fund	260,071

The following amounts for the fiscal year, or if subsequently determined to be different, the maximum amounts allowable by law, are hereby designated as interest earned from obligations of the U.S. government which is generally exempt from state income tax.

Fund	(\$000)
LifeStrategy Income Fund	37,889
LifeStrategy Conservative Growth Fund	74,508
LifeStrategy Moderate Growth Fund	104,805
LifeStrategy Growth Fund	56,270

For nonresident alien shareholders, 100% of short-term capital gain dividends distributed by the LifeStrategy Income Fund, LifeStrategy Conservative Growth Fund, LifeStrategy Moderate Growth Fund and LifeStrategy Growth Fund for the fiscal year are qualified short-term capital gains.

The following amounts were distributed as capital gain dividends (20% rate gain distributions) to shareholders during the fiscal year.

Fund	(\$000)
LifeStrategy Income Fund	72,582
LifeStrategy Conservative Growth Fund	373,286
LifeStrategy Moderate Growth Fund	871,116
LifeStrategy Growth Fund	791,148

The following percentages, or if subsequently determined to be different, the maximum percentages allowable by law, are hereby designated as ordinary income dividends eligible to be treated as interest income for purposes of section 163(j) and the regulations thereunder for the fiscal year.

Fund	Percentage
LifeStrategy Income Fund	87.2%
LifeStrategy Conservative Growth Fund	72.5
LifeStrategy Moderate Growth Fund	56.2
LifeStrategy Growth Fund	33.2

The following amounts, or if subsequently determined to be different, the maximum amounts allowable by law, are hereby designated to shareholders as foreign source income and foreign taxes paid. Form 1099-DIV reports calendar-year amounts that can be included on the income tax return of shareholders.

Fund	Foreign Source Income (\$000)	Foreign Taxes Paid (\$000)
LifeStrategy Income Fund	31,485	815
LifeStrategy Conservative Growth Fund	92,417	3,982
LifeStrategy Moderate Growth Fund	212,284	12,156
LifeStrategy Growth Fund	241,009	16,606

Notes to Financial Statements

Vanguard STAR Fund is registered under the Investment Company Act of 1940 as an open-end investment company, or mutual fund. The fund follows a balanced investment strategy by investing in select Vanguard funds. The fund invests 60% to 70% of its net assets in stock funds (predominantly large-capitalization U.S. stock funds), and 30% to 40% in STAR Core-Plus Bond Fund, a broad U.S. fixed income fund. The STAR Core-Plus Bond Fund is wholly owned by the Vanguard STAR Fund, and its financial statements accompany these financial statements. Other information about each underlying fund is available at www.vanguard.com.

A. The following significant accounting policies conform to generally accepted accounting principles for U.S. investment companies. The fund consistently follows such policies in preparing its financial statements.

1. **Security Valuation:** Investments are valued at the net asset value of each underlying Vanguard fund determined as of the close of the New York Stock Exchange (generally 4 p.m., Eastern time) on the valuation date.

2. **Futures Contracts:** The fund uses stock and bond futures contracts to a limited extent, with the objectives of maintaining full exposure to the market and maintaining its target asset allocation. The primary risks associated with the use of futures contracts are imperfect correlation between changes in market values of investments held by the fund and the prices of futures contracts, and the possibility of an illiquid market. Counterparty risk involving futures is mitigated because a regulated clearinghouse is the counterparty instead of the clearing broker. To further mitigate counterparty risk, the fund trades futures contracts on an exchange, monitors the financial strength of its clearing brokers and clearinghouse, and has entered into clearing agreements with its clearing brokers. The clearinghouse imposes initial margin requirements to secure the fund's performance and requires daily settlement of variation margin representing changes in the market value of each contract. Any securities pledged as initial margin for open contracts are noted in the Schedule of Investments.

Futures contracts are valued at their quoted daily settlement prices. The notional amounts of the contracts are not recorded in the Statement of Assets and Liabilities. Fluctuations in the value of the contracts are recorded in the Statement of Assets and Liabilities as an asset (liability) and in the Statement of Operations as unrealized appreciation (depreciation) until the contracts are closed, when they are recorded as realized gains (losses) on futures contracts.

During the year ended October 31, 2025, the fund's average investments in long and short futures contracts represented less than 1% and 0% of net assets, respectively, based on the average of the notional amounts at each quarter-end during the period. The fund had no open futures contracts at October 31, 2025.

3. **Federal Income Taxes:** The fund intends to continue to qualify as a regulated investment company and distribute virtually all of its taxable income. The fund's tax returns are open to examination by the relevant tax authorities until expiration of the applicable statute of limitations, which is generally three years after the filing of the tax return. Management has analyzed the fund's tax positions taken for all open federal and state income tax years, and has concluded that no provision for income tax is required in the fund's financial statements.

4. **Distributions:** Distributions to shareholders are recorded on the ex-dividend date. Distributions are determined on a tax basis at the fiscal year-end and may differ from net investment income and realized capital gains for financial reporting purposes.

5. **Credit Facilities and Interfund Lending Program:** The fund and certain other funds managed by The Vanguard Group ("Vanguard") participate in a \$4.3 billion committed credit facility provided by a syndicate of lenders pursuant to a credit agreement and an uncommitted credit facility provided by Vanguard. Both facilities may be renewed annually. Each fund is individually liable for its borrowings, if any, under the credit facilities. Borrowings may be utilized for temporary or emergency purposes and are subject to the fund's regulatory and contractual borrowing restrictions. With respect to the committed credit facility, the participating funds are charged administrative fees and an annual commitment fee of 0.10% of the undrawn committed amount of the facility, which are allocated to the funds based on a method approved by the fund's board of trustees and borne by the funds in which the fund invests (see Note B). Any borrowings under either facility bear interest at an agreed-upon spread plus the higher of the federal funds effective rate, the overnight bank funding rate, or the Daily Simple Secured Overnight Financing Rate inclusive of an additional agreed-upon spread. However, borrowings under the uncommitted credit facility may bear interest based upon an alternate rate agreed to by the fund and Vanguard.

In accordance with an exemptive order (the "Order") from the SEC, the fund may participate in a joint lending and borrowing program that allows registered open-end Vanguard funds to borrow money from and lend money to each other for temporary or emergency purposes (the "Interfund Lending Program"), subject to compliance with the terms and conditions of the Order, and to the extent permitted by the fund's investment objective and investment policies. Interfund loans and borrowings normally extend overnight but can have a maximum duration of seven days. Loans may be called on one business day's notice. The interest rate to be charged is governed by the conditions of the Order and internal procedures adopted by the board of trustees. The board of trustees is responsible for overseeing the Interfund Lending Program.

For the year ended October 31, 2025, the fund did not utilize the credit facilities or the Interfund Lending Program.

6. **Other:** Income and capital gain distributions received are recorded on the ex-dividend date. Interest income, if any, includes interest earned on cash and cash collateral. Security transactions are accounted for on the date securities are bought or sold. Costs used to determine realized gains (losses) on the sale of investment securities are those of the specific securities sold.

B. In accordance with the terms of a Funds' Service Agreement (the "FSA") between Vanguard and the fund, Vanguard furnishes to the fund investment advisory, corporate management, administrative, marketing, and distribution services at Vanguard's cost of operations (as defined by the FSA). These costs of operations are allocated to the fund based on methods and guidelines approved by the board of trustees. The FSA provides that expenses otherwise allocable to Vanguard funds-of-funds may be reduced or eliminated to the extent of savings realized by the underlying Vanguard funds by virtue of being part of a fund-of-funds. Accordingly, all expenses for services provided by Vanguard to the fund and all other expenses incurred by the fund during the year ended October 31, 2025, were borne by the underlying Vanguard funds in which the fund invests. The fund's trustees and officers are also trustees and officers, respectively, of the underlying Vanguard funds, as well as directors and employees, respectively, of Vanguard.

C. Various inputs may be used to determine the value of the fund's investments. These inputs are summarized in three broad levels for financial statement purposes. The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

Level 1—Quoted prices in active markets for identical securities.

Level 2—Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3—Significant unobservable inputs (including the fund's own assumptions used to determine the fair value of investments). Any investments valued with significant unobservable inputs are noted on the Schedule of Investments.

At October 31, 2025, 100% of the market value of the fund's investments was determined based on Level 1 inputs.

D. Permanent differences between book-basis and tax-basis components of net assets are reclassified among capital accounts in the financial statements to reflect their tax character. These reclassifications have no effect on net assets or net asset value per share. Examples of permanent differences include, but are not limited to, the accounting for passive foreign investment companies, in-kind redemptions, swap agreements, and distributions in connection with fund share redemptions.

	Amount (\$000)
Permanent differences were reclassified between the following accounts:	
Paid-in Capital	90,604
Total Distributable Earnings (Loss)	(90,604)

Temporary differences between book-basis and tax-basis components of total distributable earnings (loss) arise when certain items of income, gain, or loss are recognized in different periods for financial statement and tax purposes; these differences will reverse at some time in the future. Examples of temporary differences include, but are not limited to, capital loss carryforwards, the deferral of losses from wash sales, the recognition of unrealized gains or losses from certain derivative contracts, and the recognition of unrealized gains from passive foreign investment companies. As of period end, the tax-basis components of total distributable earnings (loss) are detailed in the table as follows:

	Amount (\$000)
Undistributed Ordinary Income	241,065
Undistributed Long-Term Gains	1,157,154
Net Unrealized Gains (Losses)	9,400,821
Capital Loss Carryforwards	—
Qualified Late-Year Losses	—
Other Temporary Differences	—
Total	10,799,040

The tax character of distributions paid was as follows:

	Year Ended October 31,	
	2025 Amount (\$000)	2024 Amount (\$000)
Ordinary Income*	663,109	640,211
Long-Term Capital Gains	785,718	593,150
Total	1,448,827	1,233,361

* Includes short-term capital gains, if any.

As of October 31, 2025, gross unrealized appreciation and depreciation for investments based on cost for U.S. federal income tax purposes were as follows:

	Amount (\$000)
Tax Cost	14,359,560
Gross Unrealized Appreciation	9,401,229
Gross Unrealized Depreciation	(408)
Net Unrealized Appreciation (Depreciation)	9,400,821

E. Capital shares issued and redeemed were:

	Year Ended October 31,	
	2025 Shares (000)	2024 Shares (000)
Issued	20,724	24,038
Issued in Lieu of Cash Distributions	48,861	42,688
Redeemed	(103,746)	(105,578)
Net Increase (Decrease) in Shares Outstanding	(34,161)	(38,852)

F. Transactions during the period in affiliated underlying Vanguard funds were as follows:

	Current Period Transactions							Oct. 31, 2025 Market Value (\$000)
	Oct. 31, 2024 Market Value (\$000)	Purchases at Cost (\$000)	Proceeds from Securities Sold (\$000)	Realized Net Gain (Loss) (\$000)	Change in Unrealized App. (Dep.) (\$000)	Income (\$000)	Capital Gain Distributions Received (\$000)	
Vanguard Dividend Growth Fund	—	830,022	475	9	59,255	6,003	—	888,811

¹ Not applicable—purchases and sales are for temporary cash investment purposes.

² Wholly owned fund, see accompanying financial statement for Vanguard STAR Core-Plus Bond Fund.

G. Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, political or regulatory conditions, or other events, can adversely affect local and global markets and normal market operations. Any such disruptions could have an adverse impact on the value of the fund's investments and fund performance.

To the extent the fund's investment portfolio reflects concentration in a particular market, industry, sector, country or asset class, the fund may be adversely affected by the performance of these concentrations and may be subject to increased price volatility and other risks.

The use of derivatives may expose the fund to various risks. Derivatives can be highly volatile, and any initial investment is generally small relative to the notional amount so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard securities. Leveraged derivatives positions can, therefore, increase volatility. Additional information regarding the fund's use of derivative(s) and the specific risks associated is described under significant accounting policies.

H. Operating segments are components of an entity that engage in business activities, have discrete financial information available, and have their operating results regularly reviewed by a chief operating decision maker ("CODM"). The fund is considered a single segment. Vanguard's chief executive officer, chief investment officer, and chief financial officer, who are also officers of the fund, as well as the fund's chief financial officer collectively act as the CODM. Vanguard has established various management committees to assist the CODM with overseeing aspects of the fund's daily operations. Through these committees, the CODM manages the fund's operations to achieve a single investment objective, as detailed in its prospectus, through the execution of the fund's investment strategies. When assessing segment performance and making decisions about segment resources, the CODM relies on the fund's portfolio composition, total returns, expense ratios and changes in net assets which are consistent with the information contained in the fund's financial statements. Segment assets, liabilities, income, and expenses are also detailed in the accompanying financial statements.

I. Management has determined that no subsequent events or transactions occurred through the date the financial statements were issued that would require recognition or disclosure in these financial statements.

Financial Statements

Schedule of Investments

As of October 31, 2025

The fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. The fund's Form N-PORT reports are available on the SEC's website at www.sec.gov.

* See Note A in Notes to Financial Statements.

- 1 Securities with a value of \$2,679 have been segregated as collateral for certain open To Be Announced (TBA) transactions.
 - 2 Securities with a value of \$43,479 have been segregated as initial margin for open futures contracts.
 - 3 Securities with a value of \$56,759 have been segregated as initial margin for open centrally cleared swap contracts.
 - 4 Securities with a value of \$100 have been segregated as collateral for open forward currency contracts and over-the-counter swap contracts.
 - 5 The average or expected maturity is shorter than the final maturity shown because of the possibility of interim principal payments and prepayments or the possibility of the issue being called.
 - 6 The issuer was placed under federal conservatorship in September 2008; since that time, its daily operations have been managed by the Federal Housing Finance Agency and it receives capital from the U.S. Treasury, as needed to maintain a positive net worth, in exchange for senior preferred stock.
 - 7 Includes securities purchased on a when-issued or delayed-delivery basis for which the fund has not taken delivery as of October 31, 2025.
 - 8 Variable-rate security; rate shown is effective rate at period end. Certain variable-rate securities are not based on a published reference rate and spread but are determined by the issuer or agent based on current market conditions.
 - 9 Security exempt from registration under Rule 144A of the Securities Act of 1933. Such securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At October 31, 2025, the aggregate value was \$1,381,981, representing 16.2% of net assets.
 - 10 Security value determined using significant unobservable inputs.
 - 11 Face amount denominated in British pounds.
 - 12 Face amount denominated in euro.
 - 13 Face amount denominated in Australian dollars.
 - 14 Guaranteed by the Republic of El Salvador.
 - 15 Face amount denominated in Japanese yen.
 - 16 Guaranteed by the Republic of Hungary.
 - 17 Guaranteed by the Republic of Azerbaijan.
 - 18 Affiliated money market fund available only to Vanguard funds and certain trusts and accounts managed by Vanguard. Rate shown is the 7-day yield.

Notes to Financial Statements

Vanguard STAR Core-Plus Bond Fund is registered under the Investment Company Act of 1940 as an open-end investment company, or mutual fund. The fund is wholly owned by the Vanguard STAR Fund and is dedicated to investment by Vanguard STAR Fund but may, pursuant to limited exceptions, permit investment by other Vanguard products.

A. The following significant accounting policies conform to generally accepted accounting principles for U.S. investment companies. The fund consistently follows such policies in preparing its financial statements.

1. **Security Valuation:** Securities are valued as of the close of trading on the New York Stock Exchange (generally 4 p.m., Eastern time) on the valuation date. Bonds and other temporary cash investments are valued using the latest bid prices or using valuations based on a matrix system (which considers such factors as security prices, yields, maturities, and ratings), both as furnished by independent pricing services. Structured debt securities, including mortgages and asset-backed securities, are valued using the latest bid prices or using valuations based on a matrix system that considers such factors as issuer, tranche, nominal or option-adjusted spreads, weighted average coupon, weighted average maturity, credit enhancements, and collateral, as furnished by independent pricing services. Investments in Vanguard Market Liquidity Fund are valued at that fund's net asset value. Securities for which market quotations are not readily available, or whose values have been affected by events occurring before the fund's pricing time but after the close of the securities' primary markets, are valued by methods deemed by the valuation designee to represent fair value and subject to oversight by the board of trustees.

2. **Foreign Currency:** Securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars using exchange rates obtained from an independent third party as of the fund's pricing time on the valuation date. Realized gains (losses) and unrealized appreciation (depreciation) on investment securities include the effects of changes in exchange rates since the securities were purchased, combined with the effects of changes in security prices. Fluctuations in the value of other assets and liabilities resulting from changes in exchange rates are recorded as unrealized foreign currency gains (losses) until the assets or liabilities are settled in cash, at which time they are recorded as realized foreign currency gains (losses).

3. **To Be Announced (TBA) Transactions:** A TBA transaction is an agreement to buy or sell mortgage-backed securities with agreed-upon characteristics (face amount, coupon, maturity) for settlement at a future date. The fund may be a seller of TBA transactions to reduce its exposure to the mortgage-backed securities market or in order to sell mortgage-backed securities it owns under delayed-delivery arrangements. The fund may sell a TBA that it does not hold (Sales Commitments) to manage portfolio risks while giving the fund more flexibility. The settlement date of a Sales Commitment is not set, and the positions can be increased or decreased to ensure appropriate hedging ratios for the fund and may be offset by entering into an equal amount of TBA purchases. When the fund is a buyer of TBA transactions, it maintains cash, short-term investments, or Treasuries in an amount sufficient to meet the purchase price at the settlement date of the TBA transaction. The primary risk associated with TBA transactions is that a counterparty may default on its obligations. The fund mitigates its counterparty risk by, among other things, performing a credit analysis of counterparties, allocating transactions among numerous counterparties, and monitoring its exposure to each counterparty. The fund may also enter into a Master Securities Forward Transaction Agreement (MSFTA) with certain counterparties and require them to transfer collateral as security for their performance. In the absence of a default, the collateral pledged or received by the fund cannot be repledged, resold, or rehypothecated. Under an MSFTA, upon a counterparty default (including bankruptcy), the fund may terminate any TBA transactions with that counterparty, determine the net amount owed by either party in accordance with its MSFTA, and sell or retain any collateral held up to the net amount owed to the fund under the MSFTA.

4. **Mortgage Dollar Rolls:** The fund enters into mortgage-dollar-roll transactions, in which the fund sells mortgage-backed securities to a dealer and simultaneously agrees to purchase substantially similar securities in the future at a predetermined price on a predetermined date. The fund forgoes principal and interest paid on the securities sold. In exchange for the forgone principal and interest paid, the fund is compensated by investing the proceeds of the sale, typically in high-quality short-term fixed income securities, and earning interest on such investments. Further the fund receives a lower price on the securities to be repurchased. The fund also enters into mortgage-dollar-roll transactions in which the fund buys mortgage-backed securities from a dealer pursuant to a TBA transaction and simultaneously agrees to sell substantially similar securities in the future at a predetermined price. The securities bought in mortgage-dollar-roll transactions are used to cover an open TBA sell position. The fund continues to earn interest on mortgage-backed security pools already held and receives a lower price on the securities to be sold in the future. The fund accounts for mortgage-dollar-roll transactions as purchases and sales; as such, these transactions may increase the fund's portfolio turnover rate. Amounts to be received or paid in connection with open mortgage dollar rolls are included in Receivables for Investment Securities Sold or Payables for Investment Securities Purchased in the Statement of Assets and Liabilities.

5. **Floating Rate Loan Interests:** Floating rate loan interests represent interests in amounts owed by corporate or other borrowers. These instruments may be in the form of loans, trade claims or other receivables and may include standby financing commitments such as revolving credit facilities that obligate the fund to supply additional cash to the borrower on demand. Floating rate loan interests may be made directly with a borrower or acquired through assignment or participation. The fund's right to enforce a borrower's compliance with the terms of the loan agreement, or benefit directly from the collateral supporting the loan, varies depending on whether the loan is a direct borrowing, an assignment, or a participation. Floating rate loan interests involve various risks including risk of loss in case of default, insolvency, or the bankruptcy of the borrower and are generally subject to restrictions on transfer with limited opportunities to sell them in secondary markets. The fund may also invest in loan commitments, which are contractual obligations for a future funding. The fund may earn a commitment fee on any unfunded portion of these commitments which is amortized to interest income over the commitment period. Both the funded portion of a floating rate loan interest as well as its unfunded commitment, if any, is reflected on the Schedule of Investments.

6. **Options:** The fund invests in options contracts on futures to adjust its exposure to the underlying investments. The primary risk associated with purchasing options is that if interest rates move in such a way that the exercise price of the option exceeds the value of the underlying investment, the position is worthless at expiration, and the fund loses the premium paid. The primary risk associated with selling options is that if interest rates move in such a way that the exercise price of the option exceeds the value of the underlying investment, the counterparty exercises the option, and the fund loses an amount equal to the market value of the option written less the premium received. Counterparty risk involving options on futures contracts is

mitigated because a regulated clearinghouse is the counterparty instead of the clearing broker. To further mitigate counterparty risk, the fund trades options on futures contracts on an exchange, monitors the financial strength of its clearing brokers and clearinghouses, and has entered into clearing agreements with its clearing brokers.

The fund invests in options on foreign currency, which are transacted over-the-counter (OTC) and not on an exchange. Unlike exchange-traded options, which are standardized with respect to the underlying instrument, expiration date, contract size, and strike price, the terms of OTC options generally are established through negotiation with the other party to the option contract. Although this type of arrangement allows the purchaser or writer greater flexibility to tailor an option to its needs, OTC options generally involve greater credit risk than exchange-traded options. Credit risk involves the possibility that a counterparty may default on its obligation to pay net amounts due to the fund. The fund mitigates its counterparty risk by entering into options with a diverse group of prequalified counterparties and monitoring their financial strength. The primary risk associated with purchasing options on foreign currency is that the value of the underlying foreign currencies may move in such a way that the exercise price of the option exceeds the value of the underlying investment, the position is worthless at expiration, and the fund loses the premium paid. The primary risk associated with selling options on foreign currency is that the value of the underlying foreign currencies may move in such a way that the exercise price of the option exceeds the value of the underlying investment, the counterparty exercises the option, and the fund loses an amount equal to the market value of the option written less the premium received.

Options contracts on futures and foreign currency are valued at their quoted daily settlement prices. The premium paid for a purchased option is recorded in the Statement of Assets and Liabilities as an asset that is subsequently adjusted daily to the current market value of the option purchased. The premium received for a written option is recorded in the Statement of Assets and Liabilities as an asset with an equal liability that is subsequently adjusted daily to the current market value of the option written. The notional amounts of option contracts are not recorded in the Statement of Assets and Liabilities. Fluctuations in the value of the options are recorded in the Statement of Operations as unrealized appreciation (depreciation) until expired, closed, or exercised, at which time realized gains (losses) are recognized.

During the period ended October 31, 2025, the fund's average value of investments in options purchased and options written represented less than 1% of net assets, based on the average market values at each quarter-end during the period.

7. Swaptions: The fund invests in options on swaps, which are transacted over-the-counter (OTC) and not on an exchange. The fund enters into swaptions to adjust the fund's sensitivity to interest rates or to adjust its exposure to the underlying investments. The fund may purchase a swaption from a counterparty whereby the fund has the right to enter into a swap in which the fund will pay either a fixed percentage rate or a floating rate, which is reset periodically based on short-term interest rates, and receive a different floating rate, each applied to a notional amount. The fund may also sell a swaption to a counterparty whereby the fund grants the counterparty the right to enter into a swap in which the fund will pay a floating rate and receive a fixed rate, each applied to a notional amount. Swaptions also include options that allow an existing swap to be terminated or extended by one of the counterparties. Unlike exchange-traded options, which are standardized with respect to the underlying instrument, expiration date, contract size, and strike price, the terms of OTC options generally are established through negotiation with the other party to the option contract. Although this type of arrangement allows the purchaser or writer greater flexibility to tailor an option to its needs, OTC options generally involve greater credit risk than exchange-traded options. Credit risk involves the possibility that a counterparty may default on its obligation to pay net amounts due to the fund. The fund mitigates its counterparty risk by entering into swaptions with a diverse group of prequalified counterparties and monitoring their financial strength.

The primary risk associated with purchasing swaptions is that interest rates or the value of the underlying investments move in such a way that the exercise price of the swaption exceeds the value of the underlying investment, the position is worthless at expiration, and the fund loses the premium paid. The primary risk associated with selling swaptions is that interest rates or the value of the underlying investments move in such a way that the exercise price of the swaption exceeds the value of the underlying investment, the counterparty exercises the swaption, and the resulting interest rate swap results in a negative cash flow to the fund in an amount greater than the premium received. A risk associated with all types of swaptions is the possibility that a counterparty may default on its obligations under the swaption contract.

Swaptions are valued based on market quotations received from independent pricing services or recognized dealers. The premium paid for a purchased swaption is recorded in the Statement of Assets and Liabilities as an asset and is subsequently adjusted daily based on the current market value of the swaption. The premium received for a written swaption is recorded in the Statement of Assets and Liabilities as an asset with an equal liability and is subsequently adjusted daily based on the current market value of the swaption. The notional amounts of option contracts are not recorded in the Statement of Assets and Liabilities. Fluctuations in the value of swaptions are recorded in the Statement of Operations as unrealized appreciation (depreciation) until expired, closed, or exercised, at which time realized gains (losses) are recognized.

During the period ended October 31, 2025, the fund's average value of investments in swaptions purchased and swaptions written represented less than 1% of net assets, based on the average market values at each quarter-end during the period.

8. Futures Contracts: The fund uses futures contracts to invest in fixed income asset classes with greater efficiency and lower cost than is possible through direct investment, to add value when these instruments are attractively priced, or to adjust sensitivity to changes in interest rates. The primary risks associated with the use of futures contracts are imperfect correlation between changes in market values of bonds held by the fund and the prices of futures contracts, and the possibility of an illiquid market. Counterparty risk involving futures is mitigated because a regulated clearinghouse is the counterparty instead of the clearing broker. To further mitigate counterparty risk, the fund trades futures contracts on an exchange, monitors the financial strength of its clearing brokers and clearinghouse, and has entered into clearing agreements with its clearing brokers. The clearinghouse imposes initial margin requirements to secure the fund's performance and requires daily settlement of variation margin representing changes in the market value of each contract. Any securities pledged as initial margin for open contracts are noted in the Schedule of Investments.

Futures contracts are valued at their quoted daily settlement prices. The notional amounts of the contracts are not recorded in the Statement of Assets and Liabilities. Fluctuations in the value of the contracts are recorded in the Statement of Assets and Liabilities as an asset (liability) and in the Statement of Operations as unrealized appreciation (depreciation) until the contracts are closed, when they are recorded as realized gains (losses) on futures contracts.

During the period ended October 31, 2025, the fund's average investments in long and short futures contracts represented 20% and 8% of net assets, respectively, based on the average of the notional amounts at each quarter-end during the period.

9. **Forward Currency Contracts:** The fund enters into forward currency contracts to protect the value of securities and related receivables and payables against changes in future foreign exchange rates. Risks associated with these types of forward currency contracts include movement in the values of the foreign currencies relative to the U.S. dollar and the ability of the counterparties to fulfill their obligations under the contracts. The fund mitigates its counterparty risk by entering into forward currency contracts only with a diverse group of prequalified counterparties, monitoring their financial strength, entering into master netting arrangements with its counterparties, and requiring its counterparties to transfer collateral as security for their performance. In the absence of a default, the collateral pledged or received by the fund cannot be repledged, resold, or rehypothecated. The master netting arrangements provide that, in the event of a counterparty's default (including bankruptcy), the fund may terminate the forward currency contracts, determine the net amount owed by either party in accordance with its master netting arrangements, and sell or retain any collateral held up to the net amount owed to the fund under the master netting arrangements. The forward currency contracts contain provisions whereby a counterparty may terminate open contracts if the fund's net assets decline below a certain level, triggering a payment by the fund if the fund is in a net liability position at the time of the termination. The payment amount would be reduced by any collateral the fund has pledged. Any securities pledged as collateral for open contracts are noted in the Schedule of Investments. The value of collateral received or pledged is compared daily to the value of the forward currency contracts exposure with each counterparty, and any difference, if in excess of a specified minimum transfer amount, is adjusted and settled within two business days.

Forward currency contracts are valued at their quoted daily prices obtained from an independent third party, adjusted for currency risk based on the expiration date of each contract. The notional amounts of the contracts are not recorded in the Statement of Assets and Liabilities. Fluctuations in the value of the contracts are recorded in the Statement of Assets and Liabilities as an asset (liability) and in the Statement of Operations as unrealized appreciation (depreciation) until the contracts are closed, when they are recorded as realized gains (losses) on forward currency contracts.

During the period ended October 31, 2025, the fund's average investment in forward currency contracts represented 12% of net assets, based on the average of the notional amounts at each quarter-end during the period.

10. **Swap Contracts:** The fund invests in credit default swaps to adjust the overall credit risk of the fund or to actively overweight or underweight credit risk to a specific issuer or group of issuers. The fund may sell credit protection through credit default swaps to simulate investments in long positions that are either unavailable or considered to be less attractively priced in the bond market. The fund may purchase credit protection through credit default swaps to reduce credit exposure to a given issuer or issuers. Under the terms of the swaps, an up-front payment may be exchanged between the seller and buyer. In addition, the seller of the credit protection receives a periodic payment of premium from the buyer that is a fixed percentage applied to a notional amount. If, for example, the reference entity is subject to a credit event (such as bankruptcy, failure to pay, or obligation acceleration) during the term of the swap, the seller agrees to either physically settle or cash settle the swap contract. If the swap is physically settled, the seller agrees to pay the buyer an amount equal to the notional amount and take delivery of a debt instrument of the reference issuer with a par amount equal to such notional amount. If the swap is cash settled, the seller agrees to pay the buyer the difference between the notional amount and the final price for the relevant debt instrument, as determined either in a market auction or pursuant to a pre-agreed-upon valuation procedure.

The fund enters into interest rate swap transactions to adjust the fund's sensitivity to changes in interest rates and maintain the ability to generate income at prevailing market rates. Under the terms of the swaps, one party pays the other either an amount that is a fixed percentage rate or a floating rate, which is reset periodically based on short-term interest rates, applied to a notional amount. In return, the counterparty agrees to pay a different floating rate, which is reset periodically based on short-term interest rates, applied to the same notional amount.

The fund enters into centrally cleared credit default and interest rate swaps to achieve the same objectives specified with respect to the equivalent over-the-counter swaps but with less counterparty risk because a regulated clearinghouse is the counterparty instead of the clearing broker or executing broker. The clearinghouse imposes initial margin requirements to secure the fund's performance, and requires daily settlement of variation margin representing changes in the market value of each contract. To further mitigate counterparty risk, the fund trades with a diverse group of prequalified executing brokers; monitors the financial strength of its clearing brokers, executing brokers, and clearinghouse; and has entered into agreements with its clearing brokers and executing brokers.

The primary risk associated with selling credit protection is that, upon the occurrence of a defined credit event, the market value of the debt instrument received by the fund (or, in a cash settled swap, the debt instruments used to determine the settlement payment by the fund) will be significantly less than the amount paid by the fund and, in a physically settled swap, the fund may receive an illiquid debt instrument. A risk associated with all types of swaps is the possibility that a counterparty may default on its obligation to pay net amounts due to the fund. The fund's maximum amount subject to counterparty risk is the unrealized appreciation on the swap contract. The fund mitigates its counterparty risk by entering into swaps only with a diverse group of prequalified counterparties, monitoring their financial strength, entering into master netting arrangements with its counterparties, and requiring its counterparties to transfer collateral as security for their performance. In the absence of a default, the collateral pledged or received by the fund cannot be repledged, resold, or rehypothecated. In the event of a counterparty's default (including bankruptcy), the fund may terminate any swap contracts with that counterparty, determine the net amount owed by either party in accordance with its master netting arrangements, and sell or retain any collateral held up to the net amount owed to the fund under the master netting arrangements. The swap contracts contain provisions whereby a counterparty may terminate open contracts if the fund's net assets decline below a certain level, triggering a payment by the fund if the fund is in a net liability position at the time of the termination. The payment amount would be reduced by any collateral the fund has pledged. Any securities pledged as collateral for open contracts are noted in the Schedule of Investments. The value of collateral received or pledged is compared daily to the value of the swap contracts exposure with each counterparty, and any difference, if in excess of a specified minimum transfer amount, is adjusted and settled within two business days.

The notional amounts of swap contracts are not recorded in the Statement of Assets and Liabilities. Swaps are valued daily based on market quotations received from independent pricing services or recognized dealers and the change in value is recorded in the Statement of Assets and Liabilities as an

asset (liability) and in the Statement of Operations as unrealized appreciation (depreciation) until the seller of credit protection is required to take delivery (or, in a cash settled swap, pay the settlement amount determined) upon occurrence of a credit event, periodic payments are made, or the swap terminates, at which time realized gain (loss) is recorded. The net premium to be received or paid by the fund under swap contracts is accrued daily and recorded as realized gain (loss) over the life of the contract.

During the period ended October 31, 2025, the fund's average amounts of investments in credit protection sold and credit protection purchased represented 1% and 3% of net assets, respectively, based on the average of notional amounts at each quarter-end during the period. The average amount of investments in interest rate swaps represented 14% of net assets, based on the average of notional amounts at each quarter-end during the period.

The following table summarizes the fund's derivative assets and liabilities by counterparty for derivatives subject to arrangements that provide for offsetting assets and liabilities. Exchange-traded and centrally cleared derivatives are listed separately.

	Assets Reflected in Statement of Assets and Liabilities ¹ (\$000)	Liabilities Reflected in Statement of Assets and Liabilities ¹ (\$000)	Net Amount Receivable (Payable) (\$000)	Amounts Not Offset in the Statement of Assets and Liabilities		Net Exposure ³ (Not Less Than \$0) (\$000)

1 Absent an event of default or early termination, derivative assets and liabilities are presented gross and not offset in the Statement of Assets and Liabilities.

2 Securities or other assets pledged as collateral are noted in the Schedule of Investments and Statement of Assets and Liabilities. Securities or other assets received as collateral are held in a segregated account and not included in the fund's security holdings in the Schedule of Investments.

3 Net exposure represents the net amount receivable from the counterparty in the event of default. Counterparties are not required to exchange collateral if amount is below a specified minimum transfer amount.

11. Federal Income Taxes: The fund intends to qualify as a regulated investment company and distribute virtually all of its taxable income. The fund's tax returns are open to examination by the relevant tax authorities until expiration of the applicable statute of limitations, which is generally three years after the filing of the tax return. Management has analyzed the fund's tax positions taken for all open federal and state income tax years, and has concluded that no provision for income tax is required in the fund's financial statements.

12. Distributions: Distributions to shareholders are recorded on the ex-dividend date. Distributions are determined on a tax basis at the fiscal year-end and may differ from net investment income and realized capital gains for financial reporting purposes.

13. Credit Facilities and Interfund Lending Program: The fund and certain other funds managed by The Vanguard Group ("Vanguard") participate in a \$4.3 billion committed credit facility provided by a syndicate of lenders pursuant to a credit agreement and an uncommitted credit facility provided by Vanguard. Both facilities may be renewed annually. Each fund is individually liable for its borrowings, if any, under the credit facilities. Borrowings may be utilized for temporary or emergency purposes and are subject to the fund's regulatory and contractual borrowing restrictions. With respect to the committed credit facility, the participating funds are charged administrative fees and an annual commitment fee of 0.10% of the undrawn committed amount of the facility, which are allocated to the funds based on a method approved by the fund's board of trustees and included in Management and Administrative expenses on the fund's Statement of Operations. Any borrowings under either facility bear interest at an agreed-upon spread plus the higher of the federal funds effective rate, the overnight bank funding rate, or the Daily Simple Secured Overnight Financing Rate inclusive of an additional agreed-upon spread. However, borrowings under the uncommitted credit facility may bear interest based upon an alternate rate agreed to by the fund and Vanguard.

In accordance with an exemptive order (the "Order") from the SEC, the fund may participate in a joint lending and borrowing program that allows registered open-end Vanguard funds to borrow money from and lend money to each other for temporary or emergency purposes (the "Interfund Lending Program"), subject to compliance with the terms and conditions of the Order, and to the extent permitted by the fund's investment objective and

investment policies. Interfund loans and borrowings normally extend overnight but can have a maximum duration of seven days. Loans may be called on one business day's notice. The interest rate to be charged is governed by the conditions of the Order and internal procedures adopted by the board of trustees. The board of trustees is responsible for overseeing the Interfund Lending Program.

For the period ended October 31, 2025, the fund did not utilize the credit facility or the Interfund Lending Program.

14. Other: Interest income includes income distributions received from Vanguard Market Liquidity Fund and is accrued daily. Premiums and discounts on debt securities are amortized and accreted, respectively, to interest income over the lives of the respective securities, except for premiums on certain callable debt securities that are amortized to the earliest call date. Security transactions are accounted for on the date securities are bought or sold. Costs used to determine realized gains (losses) on the sale of investment securities are those of the specific securities sold.

B. In accordance with the terms of a Funds' Service Agreement (the "FSA") between Vanguard and the fund, Vanguard furnishes to the fund investment advisory, corporate management, administrative, marketing, and distribution services at Vanguard's cost of operations (as defined by the FSA). These costs of operations are allocated to the fund based on methods and guidelines approved by the board of trustees and are generally settled twice a month.

Upon the request of Vanguard, the fund may invest up to 0.40% of its net assets as capital in Vanguard. At October 31, 2025, the fund had contributed to Vanguard capital in the amount of \$206,000, representing less than 0.01% of the fund's net assets and 0.08% of Vanguard's capital received pursuant to the FSA. The fund's trustees and officers are also directors and employees, respectively, of Vanguard.

C. Various inputs may be used to determine the value of the fund's investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes. The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

Level 1—Quoted prices in active markets for identical securities.

Level 2—Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3—Significant unobservable inputs (including the fund's own assumptions used to determine the fair value of investments). Any investments and derivatives valued with significant unobservable inputs are noted on the Schedule of Investments.

The following table summarizes the market value of the fund's investments and derivatives as of October 31, 2025, based on the inputs used to value them:

	Level 1 (\$000)	Level 2 (\$000)	Level 3 (\$000)	Total (\$000)
Investments				
Assets				
U.S. Government and Agency Obligations	—	3,160,620	—	3,160,620
Asset-Backed/Commercial Mortgage-Backed Securities	—	911,744	21,606	933,350
Corporate Bonds	—	2,708,655	—	2,708,655
Floating Rate Loan Interests	—	31,220	—	31,220
Sovereign Bonds	—	1,348,226	—	1,348,226
Taxable Municipal Bonds	—	60,794	—	60,794
Temporary Cash Investments	37,569	—	—	37,569
Options Purchased	455	2,262	—	2,717
Total	38,024	8,223,521	21,606	8,283,151

Swap Contracts ¹	—	4,261	—	4,261
Total	2,283	28,309	—	30,592
Liabilities				
Options Written	—	(2,330)	—	(2,330)
Futures Contracts ¹	(10,922)	—	—	(10,922)
Forward Currency Contracts	—	(4,484)	—	(4,484)
Swap Contracts ¹	—	(4,292)	—	(4,292)
Total	(10,922)	(11,106)	—	(22,028)

¹ Includes cumulative appreciation (depreciation) on futures contracts and centrally cleared swaps, if any, as reported in the Schedule of Investments. Only current day's variation margin is reported within the Statement of Assets and Liabilities.

D. At October 31, 2025, the fair values of derivatives were reflected in the Statement of Assets and Liabilities as follows:

Statement of Assets and Liabilities	Interest Rate Contracts (\$000)	Foreign Exchange Contracts (\$000)	Credit Contracts (\$000)	Total (\$000)
Investments in Securities, at Value—Unaffiliated Issuers (Options Purchased)	2,607	110	—	2,717
Swap Premiums Paid	—	—	146	146
Unrealized Appreciation—Futures Contracts ¹	2,283	—	—	2,283
Unrealized Appreciation—Centrally Cleared Swap Contracts ¹	3,764	—	362	4,126
Unrealized Appreciation—Forward Currency Contracts	—	24,048	—	24,048
Unrealized Appreciation—Over-the-Counter Swap Contracts	—	—	135	135
Total Assets	8,654	24,158	643	33,455
Options Written, at Value	(2,320)	(10)	—	(2,330)
Swap Premiums Received	—	—	(219)	(219)
Unrealized Depreciation—Futures Contracts ¹	(10,922)	—	—	(10,922)
Unrealized Depreciation—Centrally Cleared Swap Contracts ¹	(3,578)	—	(709)	(4,287)
Unrealized Depreciation—Forward Currency Contracts	—	(4,484)	—	(4,484)
Unrealized Depreciation—Over-the-Counter Swap Contracts	—	—	(5)	(5)
Total Liabilities	(16,820)	(4,494)	(933)	(22,247)

¹ Includes cumulative appreciation (depreciation) on futures contracts and centrally cleared swaps, if any, as reported in the Schedule of Investments. Only current day's variation margin is reported within the Statement of Assets and Liabilities.

Realized net gain (loss) and the change in unrealized appreciation (depreciation) on derivatives for the period ended October 31, 2025, were:

	Interest Rate Contracts (\$000)	Foreign Exchange Contracts (\$000)	Credit Contracts (\$000)	Total (\$000)
Realized Net Gain (Loss) on Derivatives				
Futures Contracts	9,384	—	—	9,384
Options Purchased	(14,818)	(60)	(234)	(15,112)
Options Written	12,719	—	—	12,719
Swap Contracts	914	—	5,240	6,154
Forward Currency Contracts	—	(30,676)	—	(30,676)
Realized Net Gain (Loss) on Derivatives	8,199	(30,736)	5,006	(17,531)
Change in Unrealized Appreciation (Depreciation) on Derivatives				
Futures Contracts	(8,639)	—	—	(8,639)
Options Purchased	(1,751)	(83)	—	(1,834)
Options Written	968	183	—	1,151
Swap Contracts	186	—	(217)	(31)
Forward Currency Contracts	—	19,564	—	19,564
Change in Unrealized Appreciation (Depreciation) on Derivatives	(9,236)	19,664	(217)	10,211

E. Permanent differences between book-basis and tax-basis components of net assets are reclassified among capital accounts in the financial statements to reflect their tax character. These reclassifications have no effect on net assets or net asset value per share. Examples of permanent differences include, but are not limited to, in-kind redemptions, swap agreements, and distributions in connection with fund share redemptions.

Permanent differences were reclassified between the following accounts:	Amount (\$000)
Paid-in Capital	912
Total Distributable Earnings (Loss)	(912)

Temporary differences between book-basis and tax-basis components of total distributable earnings (loss) arise when certain items of income, gain, or loss are recognized in different periods for financial statement and tax purposes; these differences will reverse at some time in the future. Examples of temporary differences include, but are not limited to, capital loss carryforwards, the deferral of losses from wash sales, the recognition of unrealized gains or losses from certain derivative contracts, the recognition of gain or loss from foreign currency hedges, and the treatment of amortization

adjustments from certain fixed income securities. As of period end, the tax-basis components of total distributable earnings (loss) are detailed in the table as follows:

	Amount (\$000)
Undistributed Ordinary Income	40,214
Undistributed Long-Term Gains	—
Net Unrealized Gains (Losses)	128,290
Capital Loss Carryforwards	—
Qualified Late-Year Losses	—
Other Temporary Differences	—
Total	168,504

The tax character of distributions paid was as follows:

	Period Ended October 31, 2025 Amount (\$000)
Ordinary Income*	250,109
Long-Term Capital Gains	—
Total	250,109

* Includes short-term capital gains, if any.

As of October 31, 2025, gross unrealized appreciation and depreciation for investments, derivatives, and sale commitments based on cost for U.S. federal income tax purposes were as follows:

	Amount (\$000)
Tax Cost	8,154,902
Gross Unrealized Appreciation	166,859
Gross Unrealized Depreciation	(38,569)
Net Unrealized Appreciation (Depreciation)	128,290

F. During the period ended October 31, 2025, the fund purchased \$5,152,439,000 of investment securities and sold \$5,376,091,000 of investment securities, other than U.S. government securities and temporary cash investments. Purchases and sales of U.S. government securities were \$20,317,226,000 and \$20,496,576,000, respectively. In addition, the fund purchased and sold investment securities of \$8,043,364,000 and \$0, respectively, in connection with in-kind purchases and redemptions of the fund's capital shares.

G. Capital shares issued and redeemed were:

	March 12, 2025 ¹ to October 31, 2025 Shares (000)
Issued	868,681
Issued in Lieu of Cash Distributions	24,827
Redeemed	(58,029)
Net Increase (Decrease) in Shares Outstanding	835,479

¹ Inception.

H. Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, political or regulatory conditions, or other events, can adversely affect local and global markets and normal market operations. Any such disruptions could have an adverse impact on the value of the fund's investments and fund performance.

To the extent the fund's investment portfolio reflects concentration in a particular market, industry, sector, country or asset class, the fund may be adversely affected by the performance of these concentrations and may be subject to increased price volatility and other risks.

Credit risk is the risk that a counterparty to a transaction or an issuer of a financial instrument will fail to pay interest and principal when due, or that perceptions of the issuer's ability to make such payments will cause the price of an investment to decline. Investment in debt securities will generally increase credit risk.

The use of derivatives may expose the fund to various risks. Derivatives can be highly volatile, and any initial investment is generally small relative to the notional amount so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard securities. Leveraged derivatives positions can, therefore, increase volatility. Additional information regarding the fund's use of derivative(s) and the specific risks associated is described under significant accounting policies.

I. Operating segments are components of an entity that engage in business activities, have discrete financial information available, and have their operating results regularly reviewed by a chief operating decision maker ("CODM"). The fund is considered a single segment. Vanguard's chief executive officer, chief investment officer, and chief financial officer, who are also officers of the fund, as well as the fund's chief financial officer collectively act as the CODM. Vanguard has established various management committees to assist the CODM with overseeing aspects of the fund's daily operations. Through these committees, the CODM manages the fund's operations to achieve a single investment objective, as detailed in its prospectus, through the execution of the fund's investment strategies. When assessing segment performance and making decisions about segment resources, the CODM relies on the fund's portfolio composition, total returns, expense ratios and changes in net assets which are consistent with the information contained in the fund's financial statements. Segment assets, liabilities, income, and expenses are also detailed in the accompanying financial statements.

J. Management has determined that no subsequent events or transactions occurred through the date the financial statements were issued that would require recognition or disclosure in these financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Vanguard STAR Funds and Shareholders of Vanguard STAR Fund and Vanguard STAR Core-Plus Bond Fund

Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of each of the funds listed in the table below (two of the funds constituting Vanguard STAR Funds, hereafter collectively referred to as the "Funds") as of October 31, 2025, the related statements of operations and of changes in net assets for each of the periods indicated in the table below, including the related notes, and the financial highlights for each of the periods indicated therein (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds listed in the table below as of October 31, 2025, the results of each of their operations and the changes in each of their net assets for the periods indicated in the table below, and each of the financial highlights for each of the periods indicated therein, in conformity with accounting principles generally accepted in the United States of America.

Vanguard STAR Fund (1)

Vanguard STAR Core-Plus Bond Fund (2)

(1) Statement of operations for the year ended October 31, 2025, the statement of changes in net assets for each of the two years in the period ended October 31, 2025

(2) Statement of operations and changes in net assets for the period March 12, 2025 (inception) through October 31, 2025

Basis for Opinions

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of October 31, 2025 by correspondence with the custodian, transfer agent, agent banks and brokers; when replies were not received from agent banks and brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

/s/PricewaterhouseCoopers LLP
Philadelphia, Pennsylvania
December 19, 2025

We have served as the auditor of one or more investment companies in The Vanguard Group of Funds since 1975.

Tax information (unaudited)

The following percentages, or if subsequently determined to be different, the maximum percentages allowable by law, of ordinary income (dividend income plus short-term gains, if any) for the fiscal period qualified for the dividends-received deduction for corporate shareholders.

Fund	Percentage
STAR Fund	10.6%
STAR Core-Plus Bond Fund	—

The following amounts, or if subsequently determined to be different, the maximum amounts allowable by law, are hereby designated as qualified dividend income for purposes of the maximum rate under section 1(h)(11) for calendar year 2024. Shareholders will be notified in January 2026 via IRS Form 1099 of the amounts for use in preparing their 2025 income tax return.

Fund	(\$000)
STAR Fund	176,278
STAR Core-Plus Bond Fund	—

The following amounts for the fiscal period, or if subsequently determined to be different, the maximum amounts allowable by law, are hereby designated as interest earned from obligations of the U.S. government which is generally exempt from state income tax.

Fund	(\$000)
STAR Fund	12,550
STAR Core-Plus Bond Fund	29,160

For nonresident alien shareholders, 100% of short-term capital gain dividends distributed by the STAR Fund and STAR Core-Plus Bond Fund for the fiscal period are qualified short-term capital gains.

The following amounts were distributed as capital gain dividends (20% rate gain distributions) to shareholders during the fiscal period.

Fund	(\$000)
STAR Fund	868,399
STAR Core-Plus Bond Fund	—

The following percentages, or if subsequently determined to be different, the maximum percentages allowable by law, are hereby designated as ordinary income dividends eligible to be treated as interest income for purposes of section 163(j) and the regulations thereunder for the fiscal period.

Fund	Percentage
STAR Fund	19.9%
STAR Core-Plus Bond Fund	100.0

The following percentages, or if subsequently determined to be different, the maximum percentages allowable by law, are hereby designated as interest-related dividends eligible for exemption from U.S. withholding tax for nonresident alien shareholders.

Fund	Percentage
STAR Fund	—%
STAR Core-Plus Bond Fund	76.6

The following amounts, or if subsequently determined to be different, the maximum amounts allowable by law, are hereby designated to shareholders as foreign source income and foreign taxes paid. Form 1099-DIV reports calendar-year amounts that can be included on the income tax return of shareholders.

Fund	Foreign Source Income (\$000)	Foreign Taxes Paid (\$000)
STAR Fund	79,144	8,563

* See Note A in Notes to Financial Statements.

* Non-income-producing security.

1 Includes partial security positions on loan to broker-dealers. The total value of securities on loan is \$6,584,428.

2 Security value determined using significant unobservable inputs.

3 Security exempt from registration under Rule 144A of the Securities Act of 1933. Such securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At October 31, 2025, the aggregate value was \$14,488,514, representing 2.6% of net assets.

4 "Other" represents securities that are not classified by the fund's benchmark index.

5 Considered an affiliated company of the fund as the issuer is another member of The Vanguard Group.

6 Affiliated money market fund available only to Vanguard funds and certain trusts and accounts managed by Vanguard. Rate shown is the 7-day yield.

7 Collateral of \$7,113,734 was received for securities on loan, of which \$7,070,496 is held in Vanguard Market Liquidity Fund and \$43,238 is held in cash.

ADR—American Depositary Receipt.

GDR—Global Depositary Receipt.

NVDR—Non-Voting Depositary Receipt.

REIT—Real Estate Investment Trust.

Notes to Financial Statements

Vanguard Total International Stock Index Fund is registered under the Investment Company Act of 1940 as an open-end investment company, or mutual fund. The fund offers six classes of shares: Investor Shares, ETF Shares, Admiral Shares, Institutional Shares, Institutional Plus Shares, and Institutional Select Shares. Each of the share classes has different eligibility and minimum purchase requirements, and is designed for different types of investors. ETF Shares are listed for trading on Nasdaq; they can be purchased and sold through a broker.

A. The following significant accounting policies conform to generally accepted accounting principles for U.S. investment companies. The fund consistently follows such policies in preparing its financial statements.

1. **Security Valuation:** Securities are valued as of the close of trading on the New York Stock Exchange (generally 4 p.m., Eastern time) on the valuation date. Equity securities are valued at the latest quoted sales prices or official closing prices taken from the primary market in which each security trades; such securities not traded on the valuation date are valued at the mean of the latest quoted bid and asked prices. Securities for which market quotations are not readily available, or whose values have been affected by events occurring before the fund's pricing time but after the close of the securities' primary markets, are valued by methods deemed by the valuation designee to represent fair value and subject to oversight by the board of trustees. These procedures include obtaining quotations from an independent pricing service, monitoring news to identify significant market- or security-specific events, and evaluating changes in the values of foreign market proxies (for example, ADRs, futures contracts, or exchange-traded funds), between the time the foreign markets close and the fund's pricing time. When fair-value pricing is employed, the prices of securities used by a fund to calculate its net asset value may differ from quoted or published prices for the same securities. Investments in Vanguard Market Liquidity Fund are valued at that fund's net asset value.

2. **Foreign Currency:** Securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars using exchange rates obtained from an independent third party as of the fund's pricing time on the valuation date. Realized gains (losses) and unrealized appreciation (depreciation) on investment securities include the effects of changes in exchange rates since the securities were purchased, combined with the effects of changes in security prices. Fluctuations in the value of other assets and liabilities resulting from changes in exchange rates are recorded as unrealized foreign currency gains (losses) until the assets or liabilities are settled in cash, at which time they are recorded as realized foreign currency gains (losses).

3. **Futures Contracts:** The fund uses index futures contracts to a limited extent, with the objectives of maintaining full exposure to the stock market, maintaining liquidity, and minimizing transaction costs. The fund may purchase futures contracts to immediately invest incoming cash in the market, or sell futures in response to cash outflows, thereby simulating a fully invested position in the underlying index while maintaining a cash balance for liquidity. The primary risks associated with the use of futures contracts are imperfect correlation between changes in market values of stocks held by the fund and the prices of futures contracts, and the possibility of an illiquid market. Counterparty risk involving futures is mitigated because a regulated clearinghouse is the counterparty instead of the clearing broker. To further mitigate counterparty risk, the fund trades futures contracts on an exchange, monitors the financial strength of its clearing brokers and clearinghouse, and has entered into clearing agreements with its clearing brokers. The clearinghouse imposes initial margin requirements to secure the fund's performance and requires daily settlement of variation margin representing changes in the market value of each contract. Any securities pledged as initial margin for open contracts are noted in the Schedule of Investments.

Futures contracts are valued at their quoted daily settlement prices. The notional amounts of the contracts are not recorded in the Statement of Assets and Liabilities. Fluctuations in the value of the contracts are recorded in the Statement of Assets and Liabilities as an asset (liability) and in the Statement of Operations as unrealized appreciation (depreciation) until the contracts are closed, when they are recorded as realized gains (losses) on futures contracts.

During the year ended October 31, 2025, the fund's average investments in long and short futures contracts represented 1% and 0% of net assets, respectively, based on the average of the notional amounts at each quarter-end during the period.

4. **Forward Currency Contracts:** The fund enters into forward currency contracts to protect the value of securities and related receivables and payables against changes in future foreign exchange rates. Risks associated with these types of forward currency contracts include movement in the values of the foreign currencies relative to the U.S. dollar and the ability of the counterparties to fulfill their obligations under the contracts. The fund mitigates its counterparty risk by entering into forward currency contracts only with a diverse group of prequalified counterparties, monitoring their financial strength, entering into master netting arrangements with its counterparties, and requiring its counterparties to transfer collateral as security for their performance. In the absence of a default, the collateral pledged or received by the fund cannot be repledged, resold, or rehypothecated. The master netting arrangements provide that, in the event of a counterparty's default (including bankruptcy), the fund may terminate the forward currency contracts, determine the net amount owed by either party in accordance with its master netting arrangements, and sell or retain any collateral held up to the net amount owed to the fund under the master netting arrangements. The forward currency contracts contain provisions whereby a counterparty may terminate open contracts if the fund's net assets decline below a certain level, triggering a payment by the fund if the fund is in a net liability position at the time of the termination. The payment amount would be reduced by any collateral the fund has pledged. Any securities pledged as collateral for open contracts are noted in the Schedule of Investments. The value of collateral received or pledged is compared daily to the value of the forward currency contracts exposure with each counterparty, and any difference, if in excess of a specified minimum transfer amount, is adjusted and settled within two business days.

Forward currency contracts are valued at their quoted daily prices obtained from an independent third party, adjusted for currency risk based on the expiration date of each contract. The notional amounts of the contracts are not recorded in the Statement of Assets and Liabilities. Fluctuations in the value of the contracts are recorded in the Statement of Assets and Liabilities as an asset (liability) and in the Statement of Operations as unrealized appreciation (depreciation) until the contracts are closed, when they are recorded as realized gains (losses) on forward currency contracts.

During the year ended October 31, 2025, the fund's average investment in forward currency contracts represented 1% of net assets, based on the average of the notional amounts at each quarter-end during the period.

5. **Swap Contracts:** The fund has entered into equity swap contracts to earn the total return on selected reference stocks or indexes in the fund's target index. Under the terms of the swaps, the fund receives the total return on the referenced stock (i.e., receiving the increase or paying the decrease in value of the selected reference stock and receiving the equivalent of any dividends in respect of the selected referenced stock) over a specified period of time, applied to a notional amount that represents the value of a designated number of shares of the selected reference stock at the beginning of the equity swap contract. The fund also pays a floating rate that is based on short-term interest rates, applied to the notional amount. At the same time, the fund generally invests an amount approximating the notional amount of the swap in high-quality temporary cash investments.

A risk associated with all types of swaps is the possibility that a counterparty may default on its obligation to pay net amounts due to the fund. The fund's maximum amount subject to counterparty risk is the unrealized appreciation on the swap contract. The fund mitigates its counterparty risk by entering into swaps only with a diverse group of prequalified counterparties, monitoring their financial strength, entering into master netting arrangements with its counterparties, and requiring its counterparties to transfer collateral as security for their performance. In the absence of a default, the collateral pledged or received by the fund cannot be repledged, resold, or rehypothecated. In the event of a counterparty's default (including bankruptcy), the fund may terminate any swap contracts with that counterparty, determine the net amount owed by either party in accordance with its master netting arrangements, and sell or retain any collateral held up to the net amount owed to the fund under the master netting arrangements. The swap contracts contain provisions whereby a counterparty may terminate open contracts if the fund's net assets decline below a certain level, triggering a payment by the fund if the fund is in a net liability position at the time of the termination. The payment amount would be reduced by any collateral the fund has pledged. Any securities pledged as collateral for open contracts are noted in the Schedule of Investments. The value of collateral received or pledged is compared daily to the value of the swap contracts exposure with each counterparty, and any difference, if in excess of a specified minimum transfer amount, is adjusted and settled within two business days.

The notional amounts of swap contracts are not recorded in the Statement of Assets and Liabilities. Swaps are valued daily based on market quotations received from independent pricing services or recognized dealers and the change in value is recorded in the Statement of Assets and Liabilities as an asset (liability) and in the Statement of Operations as unrealized appreciation (depreciation) until periodic payments are made or the termination of the swap, at which time realized gain (loss) is recorded.

During the year ended October 31, 2025, the fund's average amounts of investments in total return swaps represented less than 1% of net assets, based on the average of notional amounts at each quarter-end during the period.

6. **Federal Income Taxes:** The fund intends to continue to qualify as a regulated investment company and distribute virtually all of its taxable income. The fund's tax returns are open to examination by the relevant tax authorities until expiration of the applicable statute of limitations, which is generally three years after the filing of the tax return. Management has analyzed the fund's tax positions taken for all open federal and state income tax years, and has concluded that no provision for income tax is required in the fund's financial statements.

7. **Distributions:** Distributions to shareholders are recorded on the ex-dividend date. Distributions are determined on a tax basis at the fiscal year-end and may differ from net investment income and realized capital gains for financial reporting purposes.

8. **Securities Lending:** To earn additional income, the fund lends its securities to qualified institutional borrowers. Security loans are subject to termination by the fund at any time, and are required to be secured at all times by collateral in an amount at least equal to the market value of securities loaned. Daily market fluctuations could cause the value of loaned securities to be more or less than the value of the collateral received. When this occurs, the collateral is adjusted and settled before the opening of the market on the next business day. The fund further mitigates its counterparty risk by entering into securities lending transactions only with a diverse group of prequalified counterparties, monitoring their financial strength, and entering into master securities lending agreements with its counterparties. The master securities lending agreements provide that, in the event of a counterparty's default (including bankruptcy), the fund may terminate any loans with that borrower, determine the net amount owed, and sell or retain the collateral up to the net amount owed to the fund; however, such actions may be subject to legal proceedings. While collateral mitigates counterparty risk, in the event of a default, the fund may experience delays and costs in recovering the securities loaned. The fund invests cash collateral received in Vanguard Market Liquidity Fund, and records a liability in the Statement of Assets and Liabilities for the return of the collateral, during the period the securities are on loan. Collateral investments in Vanguard Market Liquidity Fund are subject to market appreciation or depreciation. Securities lending income represents fees charged to borrowers plus income earned on invested cash collateral, less expenses associated with the loan. During the term of the loan, the fund is entitled to all distributions made on or in respect of the loaned securities.

9. **Credit Facilities and Interfund Lending Program:** The fund and certain other funds managed by The Vanguard Group ("Vanguard") participate in a \$4.3 billion committed credit facility provided by a syndicate of lenders pursuant to a credit agreement and an uncommitted credit facility provided by Vanguard. Both facilities may be renewed annually. Each fund is individually liable for its borrowings, if any, under the credit facilities. Borrowings may be utilized for temporary or emergency purposes and are subject to the fund's regulatory and contractual borrowing restrictions. With respect to the committed credit facility, the participating funds are charged administrative fees and an annual commitment fee of 0.10% of the undrawn committed amount of the facility, which are allocated to the funds based on a method approved by the fund's board of trustees and included in Management and Administrative expenses on the fund's Statement of Operations. Any borrowings under either facility bear interest at an agreed-upon spread plus the higher of the federal funds effective rate, the overnight bank funding rate, or the Daily Simple Secured Overnight Financing Rate inclusive of an additional agreed-upon spread. However, borrowings under the uncommitted credit facility may bear interest based upon an alternate rate agreed to by the fund and Vanguard.

In accordance with an exemptive order (the "Order") from the SEC, the fund may participate in a joint lending and borrowing program that allows registered open-end Vanguard funds to borrow money from and lend money to each other for temporary or emergency purposes (the "Interfund Lending Program"), subject to compliance with the terms and conditions of the Order, and to the extent permitted by the fund's investment objective and investment policies. Interfund loans and borrowings normally extend overnight but can have a maximum duration of seven days. Loans may be called on one business day's notice. The interest rate to be charged is governed by the conditions of the Order and internal procedures adopted by the board of trustees. The board of trustees is responsible for overseeing the Interfund Lending Program.

For the year ended October 31, 2025, the fund did not utilize the credit facilities or the Interfund Lending Program.

10. Other: Dividend income is recorded on the ex-dividend date. Non-cash dividends included in income, if any, are recorded at the fair value of the securities received. Interest income includes income distributions received from Vanguard Market Liquidity Fund and is accrued daily. Security transactions are accounted for on the date securities are bought or sold. Costs used to determine realized gains (losses) on the sale of investment securities are those of the specific securities sold.

Taxes on foreign dividends and capital gains have been provided for in accordance with the applicable countries' tax rules and rates. Deferred foreign capital gains tax, if any, is accrued daily based upon net unrealized gains. The fund has filed tax reclaims for previously withheld taxes on dividends earned in certain European Union countries. These filings are subject to various administrative and judicial proceedings within these countries. Amounts related to these reclaims are recorded when there are no significant uncertainties as to the ultimate resolution of proceedings, the likelihood of receipt of these reclaims, and the potential timing of payment. Such tax reclaims and related professional fees, if any, are included in dividend income and other expenses, respectively.

Each class of shares has equal rights as to assets and earnings, except that each class separately bears certain class-specific expenses related to maintenance of shareholder accounts (included in Management and Administrative expenses), shareholder reporting, and proxy fees. Marketing and distribution expenses are allocated to each class of shares based on a method approved by the board of trustees. Income, other non-class-specific expenses, and gains and losses on investments are allocated to each class of shares based on its relative net assets.

B. In accordance with the terms of a Funds' Service Agreement (the "FSA") between Vanguard and the fund, Vanguard furnishes to the fund investment advisory, corporate management, administrative, marketing, and distribution services at Vanguard's cost of operations (as defined by the FSA). These costs of operations are allocated to the fund based on methods and guidelines approved by the board of trustees and are generally settled twice a month.

Upon the request of Vanguard, the fund may invest up to 0.40% of its net assets as capital in Vanguard. At October 31, 2025, the fund had contributed to Vanguard capital in the amount of \$13,305,000, representing less than 0.01% of the fund's net assets and 5.32% of Vanguard's capital received pursuant to the FSA. The fund's trustees and officers are also directors and employees, respectively, of Vanguard.

C. Various inputs may be used to determine the value of the fund's investments and derivatives. These inputs are summarized in three broad levels for financial statement purposes. The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

Level 1—Quoted prices in active markets for identical securities.

Level 2—Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3—Significant unobservable inputs (including the fund's own assumptions used to determine the fair value of investments). Any investments and derivatives valued with significant unobservable inputs are noted on the Schedule of Investments.

The following table summarizes the market value of the fund's investments and derivatives as of October 31, 2025, based on the inputs used to value them:

	Level 1 (\$000)	Level 2 (\$000)	Level 3 (\$000)	Total (\$000)
Investments				
Assets				
Common Stocks	53,786,620	491,242,530	477,442	545,506,592
Preferred Stocks	1,716,864	1,710,359	—	3,427,223
Rights	1,478	2,260	7,289	11,027
Warrants	37	—	372	409
Temporary Cash Investments	11,091,214	—	—	11,091,214
Total	66,596,213	492,955,149	485,103	560,036,465
Derivative Financial Instruments				
Assets				
Futures Contracts ¹	171,934	—	—	171,934
Forward Currency Contracts	—	39,740	—	39,740
Swap Contracts	—	16,989	—	16,989
Total	171,934	56,729	—	228,663
Liabilities				
Futures Contracts ¹	(933)	—	—	(933)
Forward Currency Contracts	—	(81,260)	—	(81,260)
Swap Contracts	—	(9,934)	—	(9,934)
Total	(933)	(91,194)	—	(92,127)

¹ Includes cumulative appreciation (depreciation) on futures contracts and centrally cleared swaps, if any, as reported in the Schedule of Investments. Only current day's variation margin is reported within the Statement of Assets and Liabilities.

D. At October 31, 2025, the fair values of derivatives were reflected in the Statement of Assets and Liabilities as follows:

Statement of Assets and Liabilities	Equity Contracts (\$000)	Foreign Exchange Contracts (\$000)	Total (\$000)
Unrealized Appreciation—Futures Contracts ¹	171,934	—	171,934
Unrealized Appreciation—Forward Currency Contracts	—	39,740	39,740
Unrealized Appreciation—Over-the-Counter Swap Contracts	16,989	—	16,989
Total Assets	188,923	39,740	228,663
Unrealized Depreciation—Futures Contracts ¹	(933)	—	(933)
Unrealized Depreciation—Forward Currency Contracts	—	(81,260)	(81,260)
Unrealized Depreciation—Over-the-Counter Swap Contracts	(9,934)	—	(9,934)
Total Liabilities	(10,867)	(81,260)	(92,127)

¹ Includes cumulative appreciation (depreciation) on futures contracts and centrally cleared swaps, if any, as reported in the Schedule of Investments. Only current day's variation margin is reported within the Statement of Assets and Liabilities.

Realized net gain (loss) and the change in unrealized appreciation (depreciation) on derivatives for the year ended October 31, 2025, were:

Realized Net Gain (Loss) on Derivatives	Equity Contracts (\$000)	Foreign Exchange Contracts (\$000)	Total (\$000)
Futures Contracts	667,294	—	667,294
Swap Contracts	140,546	—	140,546
Forward Currency Contracts	—	(78,388)	(78,388)
Realized Net Gain (Loss) on Derivatives	807,840	(78,388)	729,452

Change in Unrealized Appreciation (Depreciation) on Derivatives	Equity Contracts (\$000)	Foreign Exchange Contracts (\$000)	Total (\$000)
Futures Contracts	175,391	—	175,391
Swap Contracts	23,295	—	23,295
Forward Currency Contracts	—	(27,978)	(27,978)
Change in Unrealized Appreciation (Depreciation) on Derivatives	198,686	(27,978)	170,708

E. Permanent differences between book-basis and tax-basis components of net assets are reclassified among capital accounts in the financial statements to reflect their tax character. These reclassifications have no effect on net assets or net asset value per share. Examples of permanent differences include, but are not limited to, the accounting for passive foreign investment companies, in-kind redemptions, swap agreements, and distributions in connection with fund share redemptions.

Permanent differences were reclassified between the following accounts:	Amount (\$000)
Paid-in Capital	2,406,512
Total Distributable Earnings (Loss)	(2,406,512)

Temporary differences between book-basis and tax-basis components of total distributable earnings (loss) arise when certain items of income, gain, or loss are recognized in different periods for financial statement and tax purposes; these differences will reverse at some time in the future. Examples of temporary differences include, but are not limited to, capital loss carryforwards, the deferral of losses from wash sales, the recognition of unrealized gains or losses from certain derivative contracts, and the recognition of unrealized gains from passive foreign investment companies. As of period end, the tax-basis components of total distributable earnings (loss) are detailed in the table as follows:

	Amount (\$000)
Undistributed Ordinary Income	8,496,819
Undistributed Long-Term Gains	—
Net Unrealized Gains (Losses)	172,163,054
Capital Loss Carryforwards	(34,866,581)
Qualified Late-Year Losses	—
Other Temporary Differences	57,831
Total	145,851,123

The tax character of distributions paid was as follows:

	Year Ended October 31,	
	2025 Amount (\$000)	2024 Amount (\$000)
Ordinary Income*	14,610,778	12,562,627
Long-Term Capital Gains	—	—
Total	14,610,778	12,562,627

* Includes short-term capital gains, if any.

As of October 31, 2025, gross unrealized appreciation and depreciation for investments and derivatives based on cost for U.S. federal income tax purposes were as follows:

	Amount (\$000)
Tax Cost	385,952,232
Gross Unrealized Appreciation	215,581,218
Gross Unrealized Depreciation	(41,442,824)
Net Unrealized Appreciation (Depreciation)	174,138,394

F. During the year ended October 31, 2025, the fund purchased \$34,842,444,000 of investment securities and sold \$20,946,326,000 of investment securities, other than temporary cash investments. In addition, the fund purchased and sold investment securities of \$7,259,665,000 and \$5,182,250,000, respectively, in connection with in-kind purchases and redemptions of the fund's capital shares.

The fund purchased securities from and sold securities to other Vanguard funds or accounts managed by Vanguard or its affiliates, in accordance with procedures adopted by the board of trustees in compliance with Rule 17a-7 of the Investment Company Act of 1940. For the year ended October 31, 2025, such purchases were \$0 and sales were \$1,501,000, resulting in net realized loss of \$1,039,000; these amounts, other than temporary cash investments, are included in the purchases and sales of investment securities noted above.

G. Capital share transactions for each class of shares were:

¹ Not applicable—purchases and sales are for temporary cash investment purposes.

I. Significant market disruptions, such as those caused by pandemics, natural or environmental disasters, war, acts of terrorism, political or regulatory conditions, or other events, can adversely affect local and global markets and normal market operations. Any such disruptions could have an adverse impact on the value of the fund's investments and fund performance.

To the extent the fund's investment portfolio reflects concentration in a particular market, industry, sector, country or asset class, the fund may be adversely affected by the performance of these concentrations and may be subject to increased price volatility and other risks.

The use of derivatives may expose the fund to various risks. Derivatives can be highly volatile, and any initial investment is generally small relative to the notional amount so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard securities. Leveraged derivatives positions can, therefore, increase volatility. Additional information regarding the fund's use of derivative(s) and the specific risks associated is described under significant accounting policies.

J. Operating segments are components of an entity that engage in business activities, have discrete financial information available, and have their operating results regularly reviewed by a chief operating decision maker ("CODM"). The fund is considered a single segment. Vanguard's chief executive officer, chief investment officer, and chief financial officer, who are also officers of the fund, as well as the fund's chief financial officer collectively act as the CODM. Vanguard has established various management committees to assist the CODM with overseeing aspects of the fund's daily operations. Through these committees, the CODM manages the fund's operations to achieve a single investment objective, as detailed in its prospectus, through the execution of the fund's investment strategies. When assessing segment performance and making decisions about segment resources, the CODM relies on the fund's portfolio composition, total returns, expense ratios and changes in net assets which are consistent with the information contained in the fund's financial statements. Segment assets, liabilities, income, and expenses are also detailed in the accompanying financial statements.

K. Management has determined that no subsequent events or transactions occurred through the date the financial statements were issued that would require recognition or disclosure in these financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Vanguard STAR Funds and Shareholders of Vanguard Total International Stock Index Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of Vanguard Total International Stock Index Fund (one of the funds constituting Vanguard STAR Funds, referred to hereafter as the "Fund") as of October 31, 2025, the related statement of operations for the year ended October 31, 2025, the statement of changes in net assets for each of the two years in the period ended October 31, 2025, including the related notes, and the financial highlights for each of the five years in the period ended October 31, 2025 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of October 31, 2025, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended October 31, 2025 and the financial highlights for each of the five years in the period ended October 31, 2025 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of October 31, 2025 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

/s/PricewaterhouseCoopers LLP
Philadelphia, Pennsylvania
December 19, 2025

We have served as the auditor of one or more investment companies in The Vanguard Group of Funds since 1975.

Tax information (unaudited)

The fund hereby designates \$9,185,377,000, or if subsequently determined to be different, the maximum amount allowable by law, as qualified dividend income for purposes of the maximum rate under section 1(h)(11) for calendar year 2024. Shareholders will be notified in January 2026 via IRS Form 1099 of the amounts for use in preparing their 2025 income tax return.

The fund hereby designates for the fiscal year \$101,810,000, or if subsequently determined to be different, the maximum amount allowable by law, of interest earned from obligations of the U.S. government which is generally exempt from state income tax.

The fund designates to shareholders foreign source income of \$15,031,213,000 and foreign taxes paid of \$1,217,346,000, or if subsequently determined to be different, the maximum amounts allowable by law. Form 1099-DIV reports calendar-year amounts that can be included on the income tax return of shareholders.

Item 8: Changes in and Disagreements with Accountants for Open-End Management Investment Companies.

Not applicable.

Item 9: Proxy Disclosures for Open-End Management Investment Companies.

Not applicable.

Item 10: Remuneration Paid to Directors, Officers, and Others of Open-End Management Investment Companies.

Not applicable. The Trustees' Fees and Expenses for the Total International Stock Index Fund and the STAR Core-Plus Bond Fund are included in the financial statements filed under Item 7 of this Form, and those of the STAR Fund and the LifeStrategy Funds are borne by the underlying Vanguard funds in which the funds of the Registrant invest.

Item 11: Statement Regarding Basis for Approval of Investment Advisory Contracts.

Not applicable.
